

# HOW TO BREW A FRENCH PRESS

## MEASURE

Measure out 53g or 3.5 tbsp of coffee, for a 32 oz, that's about a 1:15 ratio.

## GRIND

Grind the coffee on a coarser setting, like breadcrumbs

## BOIL

Bring the water to a boil, and let rest for about 30 sec. - 1 min. to bring down the temp

## BLOOM

Pour enough water to wet the grounds and let bloom for about 30 seconds

## BREW

Pour the remaining water to fill the container should be 850ml of water total, and let brew for 3-4 min.

## ENJOY!

After 3-4 min. give a little stir, plunge the coffee and serve!
