

# GENERAL MAINTENANCE

**MADE IN THE USA**

**To ensure your step sliders function properly, some maintenance is required!**

**You will need to lubricate the pivot points that are circled in red shown above.**

**Lubricate the heim joints and aluminum blocks as shown below.**

**We recommend you do it monthly or after any offroad adventure, including during winter months.**

**Deploy the steps, pressure wash the bodies clean including internals, then apply a multipurpose lubricant to each of the areas as shown.**

**Here are several options on lubrication that are carried at the local auto stores in most areas**
