

# Holistic Pet Cuisine Offers a Nutritional Shopping Experience

By Joyce Moed

**H**olistic Pet Cuisine is proud to be the No. 1 holistic pet food nutritional store in South Florida.

"We have been in the all natural and holistic pet food industry for over 15 years," says owner Barbara Ratner. "We offer the most concise and sound nutritional advice in the marketplace. We are subtle in our approach but very effective in our results!"

The female-owned store is proud to offer products that are healthy, organic, and made of recycled materials "because we all need to protect our environment," Barbara says. They also carry a complete line of all natural raw bones, freeze dried diets, natural pet treats and pet supplements, as well as pet supplies, beds, harnesses and leads. "We offer the largest assortment of frozen raw and slow-cooked feline and canine foods that are delivered direct to your home or picked up at our Boca Raton market."

The inspiration behind the store is personal for Barbara and Howard Ratner. Today, Barbara is proud to run the business on her own.

"Holistic Pet Cuisine is a labor of love due the loss of our pet, Cuddles, during the major pet food recall in 2007," Barbara remembers.

After a few years of being in the business, Barbara saw a need to help parents find a way to assist their dogs and cats through natural and healthy supplements and treats. After an in-depth study of what was available and severely needed in the pet food industry, Barbara created a broad spectrum pet supplement for dogs and cats that could help eliminate and assist animals in reducing allergic responses and remove the histamine that could be causing their daily allergies as well as boosting their immune systems. Her product is called K9Biotics, which provides

cats and dogs with probiotics, enzymes, milk thistle as well as 40-plus antioxidant rich super foods, extracts, and concentrates, including organic super greens, organic fruits and vegetables and soluble fiber. It is a non-GMO pet supplement.

"Our philosophy behind our business is to provide your pets with the healthiest pet food and products in the marketplace," Barbara explains. "All our products are available at Holistic Pet Cuisine are backed up with brand testing and origin of ingredients. A healthy body makes a healthy pet! Our greatest inspiration in our business is to educate pet owners on the newest products and ingredients that will assist their pets in living a healthy and happy life."

For Barbara, the biggest reward is knowing the help she is providing to pet owners. They often receiving glowing testimonials, such as: "The

**“ The owner Barbara and her staff are amazing. They are so great in informing you what can help your do. I have two dogs they have been itching and biting themselves here in Florida especially where their allergies are so high! I tried the K9Biotics as recommended. I put it in their food. They LOVE IT! THE RESULTS within a couple of weeks have been amazing! They are NOT biting at themselves or constantly itching themselves. They are more relaxed now and they feel so much better. My vet put them on Apoquel and Cytapoint injections. Now I no longer give them Cytapoin injections and I weaned them off the Apoquel. I really don't like pumping them with all this medicines. I rather try a more natural and healthy approach. This is one of the best products. Their coat is healthy and also my dog has a sensitive stomach which I was constantly giving him Pepcid medicine and since giving him the K9Biotics his stomach is so much better!! No more Pepcid! I am SO HAPPY with the results!! ”**

Barbara Ratner's dedication to animals has no limits. She is very instrumental in raising funds and pet food contributions for the many pet rescues in the area. During the hurricane seasons they distributed 100,000 pounds of food by renting a warehouse and distributing cat and dog food to the entire Palm Beach area. "We continue to donate to rescues daily! We have always given back to the community in which we live in! That is our number one goal," Barbara says.

They were also honored with the Best Pet Food Single Store Retailer in the USA by Pet Business Magazine. In addition, they received the coveted Community Service Award Outreach & Partnership" awarded by the Global Pet Expo, one of the largest industry leaders in the Pet Food World.

To the community, Barbara Ratner wants to share the following message: "If you think you have a picky pet, you don't! Let's find them the proper diet that's right for them. Do you continue to struggle with food and environmental allergies in your pets? Foods that will make your pets eat and enjoy the nutritional benefits of their meals? Now is the time to check out Holistic Pet Cuisine and experience a mecca for pets. Dogs and cats are welcome!"

"We offer free nutritional consultations and will assist you every step of the way to have your pet free of and skin allergies through proper food, treats and pet supplements," Barbara says. "We are at your door with same day delivery when order is placed by noon. We offer automatic home and office deliveries, as well."

Holistic Pet Cuisine is located at 1000 Clint More Road, Suite, 106, Boca Raton, FL 33487. For more information, call 561-241-9151 or visit <https://holisticpetcuisine.com> or email [info@holisticpetcuisine.com](mailto:info@holisticpetcuisine.com).

Garage Door Tune Up

- Tightening Hardware • Adjust Track & Spring Tension
- Lubricate Rollers & Hinges
- Inspection on Opener

A garage door is the largest moving object in most homes. The door system must be properly adjusted and maintained in order to function safely. **WARNING:** Springs, cables and other hardware attached to springs are under extreme tension. Only qualified persons should adjust them.

**Garage Doors • Automated Openers • Custom Gates**
