CONTROL KNOB

<p>Temperature knob : 100- 250°C</p> 	<p>Set the temperature that suits the foods by turning the knob clockwise.</p>
<p>Timer knob: 0 – 60 minutes</p> 	<p>Set the timer according to your desired toasting time.</p> <p>Caution: Do not open the glass door while the oven is operating!</p>

OPERATING THE APPLIANCE FOR THE FIRST TIME

1. Unpack the appliance and place it on a flat horizontal counter top. Check all the accessories whether all in good condition.
2. For correct operation, the oven must have sufficient airflow. Allow at least 10cm distance at both sides of the oven and 15cm on top of the oven to be free from any obstacle.
3. For initial use, please clean the wire rack, food tray and tray handle with mild detergent and water. Wipe the inner oven with dry cloth.
4. Re-assemble the accessories into the inner oven and insert the plug into the wall outlet.

Note: Ensure the timer knob is switched to “0” sign position.

5. Turn the temperature knob to max level 250°C and set the timer button approximately 15 minutes to eliminate any protective substance that still remain in the inner oven.

Caution: The body and inner oven can be very hot after preheating.

6. Do not worry about the smoke as it is normal for the first time heating. The smoke will be disappear after about 20 minutes.
7. Insert foods that need to be preheat or toasted and adjust the temperature and timer knobs to desired level and time that suit the food.

OPERATING THE APPLIANCE

1. In general, it is not necessary to preheat the oven but for better cooking result, complete step 5 (under operating the appliance for the first time) every time before inserting food into the oven.

Caution: The body oven can be very hot after preheating.

8. Insert foods that need to be preheat or toasted and adjust the temperature and timer knobs to desired level and time type that suit the food.

Warning: At this stage, the heaters have started to preheat and it might be very hot at the surface. Do not touch the body while operating the oven.

CLEANING AND MAINTENANCE

1. After use, power off the switch and unplug the plug from the wall outlet. Allow the appliance to cool down before cleaning.
2. Wipe the food tray, wire rack and tray handle with towel or soft cloth. **WARNING:** Never immerse the appliance in water or any other liquids for cleaning.
3. Store the appliance in a safe clean place.

ENVIRONMENT-FRIENDLY DISPOSAL

You can help to protect the environment!

Please remember to respect the local regulations: hand in the non-working electrical equipments to an appropriate waste disposal centre.
