GENERAL SAFETY INFORMATION

When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock and injury to persons, including the following:

Read all instructions before using Fan:-

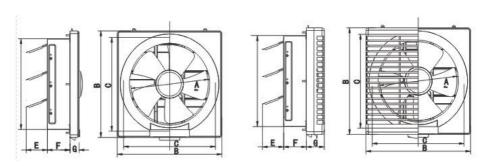

- Be sure to choose appropriate voltage (220-240V/50Hz) before connecting with power source.
- Power plug is not included in the appliance and comes separately. It is recommended to install the appliance directly to a wall socket with individual wall switch.
- 3. Use this Fan only as described in this manual. Any other use not recommended by the manufacturer may cause fire, electrical shock, or injury to persons.
- 4. Do not operate any Fan with a damaged cord or plug or after the Fan malfunctions, has been dropped or damaged in any manner. Return Fan to authorized service facility for examination, electrical or mechanical adjustment or repair.
- 5. Ground height should be more than 2.3M while using.
- 6. Do not insert or allow fingers or foreign objects to enter any ventilation or exhaust opening as it may cause an electric shock of fire, or damage the Fan. Do not block or tamper with the Fan in any manner while it is in operation.
- 7. If the supply cord is damaged it must be repaired by its manufacturer, its Service Agent or a similarly qualified person in order to avoid a hazard.
- 8. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
