#### Minimum clearance

Suggested installation height 37%, from finished floor to center of tap, depending on height of sink. Check installation guide for further details.

#### **WD06 Wall installation**

The Dyson Airblade Wash+Dry hand dryer is designed so that the motor unit is located behind the stud wall within a metal enclosure which is supplied with the Dyson Airblade Wash+Dry hand dryer (Fig.1). The vertical wall studs must be constructed so as to allow the metal enclosure to be fitted between them (Fig.2). One of the horizontal wall studs must be fitted a) so it holds the main weight of the metal duct and the unit, and b) so it is in the correct position for the tap stem.

For complete instructions, please refer to the printed installation guide supplied with the machine. It's also available online at www.dyson.com/docs

### TECHNICAL SPECIFICATION

#### **Electrical**

Input voltage/Frequency: 100-110V 50-60Hz; 120V 60Hz

Motor specification: 1000W digital brushless motor Operating temperature range: 0°-40°C, 32°-104°F

Heater type: None

Standby power consumption: Less than 0.5 W

#### Construction

Tap construction: Stainless steel (brushed)

Under counter motor assembly construction: Moulded ABS (main unit)

Exterior screw type: Torx T15 Water ingress protection to IP35

#### Filter

HEPA filter (glass fiber and fleece prelayer)

Capture 99.97% of particles the size of bacteria as small as 0.3 microns from the washroom air.

#### Operation

Touch-free infra-red activation

Hand dry time measurement: 14 seconds<sup>1</sup>

Operation lock-out period: 30 seconds

Airspeed at apertures: 331 mph/533 km/h

Maximum altitude: 2,000 meters / 6,562 ft.

#### Water operation

Water flow rate: 0.5 gpm (1.9 lpm) low flow fitted aerator.

1.0 gpm (3.8 lpm) with aerator supplied with product.

Water temperature control: Thermostatic mixer recommended (not supplied)

Water pressure required: 1-8 bar

Equipped with automatic flush –

every 24 hours for 60 seconds after the last use.

#### Logistics

Net weight: WD04 9.39 lb; WD05 10.01lb; WD06 20.97lb

Packaged weight: WD04 14.90lb; WD05 16.27lb; WD06 30.09lb

Packaged dimensions: WD04 H11<sup>7</sup>/<sub>8</sub>" × W11<sup>1</sup>/<sub>8</sub>" × D11<sup>1</sup>/<sub>2</sub>"

WD05 H17"  $\times$  W10<sup>7</sup>/<sub>8</sub>"  $\times$  D11<sup>5</sup>/<sub>16</sub>"; WD06 H24"  $\times$  W14<sup>3</sup>/<sub>4</sub>"  $\times$  D11<sup>7</sup>/<sub>8</sub>"

#### Sink specification

The Dyson Airblade Wash+Dry hand dryer is compatible with most sink types. Ensure plugs are not installed in the sinks and avoid inserts with embedded plugs (e.g. ones that swivel or elevate).

Using a specially designed test method, Dyson engineers evaluated the user experience of a wide range of sink types when used with the Dyson Airblade Wash+Dry hand dryer. For further details on our recommended sinks, please see the guide on our website dyson.com/docs

We recommend avoiding sinks with the following geometric characteristics; Flat bases immediately surrounding the drain hole. (nominally within a 25/16" radius).

Sloping back and front wall transitions in relation to the base of the sink. See our pre-installation guide for further details: dyson.com/docs

All sink measurements are internal unless stated otherwise.

Minimum width of sink: 15", Front to back - Minimum: 13"

Minimum depth of sink: 5"

Maximum depth of sink for WD05 only: 8"

(External measurement of vessel sink)

Sink materials: Sinks with highly polished surfaces should be avoided, e.g. reflective chrome. Porcelain or brushed metal is ideal. When multiple taps are installed side-by-side, tap centers should be a minimum of  $22^7/_8$ " apart.

#### Standard warranty

5 year parts, 5 year labor.

#### **Product range**

WD05 Tall **WD04 Short** WD06 Wall
