Step 9 Submit forms

Email or Text Completed form to
orders@taycobrace.com (E-mail is preferred for photo quality)
Customer Service 574.968.0066 | Fax 574.245.8882
If applicable, send cast to **17530 Dugdale Dr., South Bend, IN 46635**

Four photos are required to fabricate a TayCo brace from measurements.

- Pictures taken on smart phones are acceptable.
- Position the heel of the shoe on the grid in the indicated area. While completing steps 1-3, do not move or reposition the shoe.
- To ensure a perfect fit, measure printout for accuracy before you begin (instructions on grid)

ONE

Take an overhead view of the shoe on the grid. Make sure the grid is clearly visible in the photo.

TWO

Take a lateral view of the shoe. The grid must be visible for accurate fabrication.

THREE

Take a posterior view of the shoe. Make sure the grid is clearly visible in the photo.

FOUR

With shoe on and weight bearing, take a posterior view of the ankle. No grid necessary.

If the red line is not 10", print to scale at 100%

10"

Print to scale at 100%
