- Footbed:** evercushion[®] CUSTOM FIT MID
- Sole:** Trekstar XP – 300° heat resistant, profiled, slip resistant rubber outsole with TPU Torsion Control System
- Colour:** black-blue
- Sizes:** 40 - 47

SLIP RESISTANT XTS OUTSOLE

The off-road profile of the up to 300°C heat-resistant, non-slip rubber outsole (HRO, SRC) ensures optimal ground contact, especially on unpaved surfaces. The wide studs clean themselves while running (mud release) and ensure maximum flexibility.

JOINT STABILISATION

The carbon-look joint stabilization runs around the heel, which additionally protects against ankle twisting and supports the position of the foot in the shoe

COA.TEX[®] MEMBRANE

The durable, water resistant and windproof high-tech membrane is particularly breathable and protects the foot from waterlogging through a microporous fabric structure. The membrane transports sweat and moisture to the outside. What remains is a pleasantly dry and comfortable foot feeling. a

UPPER

The upper made of robust full leather which is resistant to abrasion. The smooth and soft material offers more protection from penetrating moisture and is easy to clean.
