**Organic  
Gardening**

- Granular and Liquid Repellents
- Weather Resistant and Works in All Seasons
- Harmless to humans, animals, and plants\*
- Repels through taste, scent, and fear
- With Proven Technology

# SNAKEMACE

## Snake Repellent

A snake repellent to prevent snake entry, roaming, and foraging. This easy-to-use formula does not harm snakes and is 100% naphthalene-free. It works by confusing a snake's sensory system causing it to immediately leave.

- ✓ **FAST ACTING**
- ✓ **BIODEGRADABLE**
- ✓ **HOME FRIENDLY**

# RABBITMACE

## Rabbit Repellent

Designed to repel and train rabbits not to return. It uses a 3-pronged approach that triggers their sense of fear, taste, and smell. Highly effective in all seasons and can be used directly on and around plants.

# CATMACE

## Cat Repellent

Formulated to prevent digging, scratching, gnawing, and other bad behaviors. It works as both a repellent and training tool for indoor and outdoor use. Establish boundaries, correct bad habits, enhance cat training, and more! A safe product that is safe for use in a variety of applications, when used as directed.

# DOG MACE

## Dog Repellent

Dog training in a bottle! Formulated to prevent digging, defecation, rummaging, scratching, etc. The formula works in both indoor and outdoor settings and targets a dog's sensitive sense of smell. When used as directed, it is a safe, humane, and an effective option for repelling and training domestic and stray dogs.

We are on a mission to develop safer replacements to more toxic and harmful chemical-based pesticides currently on the market. We aim to develop plant-based solutions that are safe for everyday use and work in line with the environment and not against it. Our ingredients are generally regarded as safe and are mostly derived from nature.

# RODENT MACE

## Rodent Repellent

This product repels mice, rats, chipmunks and other rodents from basements, garages, vehicles, storage areas, barns, and other areas rodents may frequent. The granular can be used to stop squirrels, and other rodents, from digging in flowerpots and beds.

# Natures MACE

## BED BUG KILLER

The formula works by quickly breaking down the exoskeleton and attacking the neurotransmitters of bed bugs, mites, lice, fleas, and more. It continues to work after the initial application as a residual control!

We have high standards for everything we do, from the production to the customer service. We'll stick with you until your pest issue is resolved or point you in the right direction. We are persistent in trying to innovate and improve on a daily basis. To this point, we've had exceptionally high rates of repeat sales.

We provide cost effective products through our larger liquid containers (25% more product for the same price), anti-spill child resistant caps, long-reaching spray nozzles, and through an overall better-quality product at a competitive price point. The secret to our formulas is more active ingredient, with years of research and development to back each one. Our technology has been refined down to a science from laboratory testing, university studies, scholarly journals, customer feedback, and more.

# MOLE MACE

## Mole Repellent

The repellent works by targeting the tunnels, soil, and food moles and voles enjoy. It coats their food source, making it indigestible, and reduces insect activity. It makes their tunnels and soil so unappealing that they must flee to a better habitat.

# SquirrelMACE

## SQUIRREL REPELLENT

Squirrel MACE is effective in repelling squirrels, chipmunks, and raccoons. It works to stop nesting, gnawing, trailing, and chewing squirrels. Our approach targets rodents' sense of taste and smell, driving critters away before they become destructive.

# SkeeterMACE

## MOSQUITO REPELLENT

An effective solution for repelling and controlling a variety of outdoor insects. It works on fleas, ticks, mosquitoes, flies, crickets, beetles, ants, spiders, and more! It is designed for clearing bugs away from lawns, gardens, plants, patios, decks, campsites, sitting and play areas.

Nature's MACE products are safe to use around family, pets, and wildlife, when used as directed. Every formula is made with plant-based ingredients and targets each pest in a unique way. Our products can be applied to almost any surface or location and are formulated to work for extended periods of time.

Of the many aspects that separate Nature's MACE from other brands are its famous "no stink" formulas. We mask those more unpleasant odors with more pleasant minty aromas. So now you can enjoy the beautiful outdoors without being repelled yourself!

Every individual purchase is offered with a Nature's MACE 100% money back guarantee. We try to offer the industry best in product quality and customer service. Try our complete product line risk free with offers more competitive than similar options.
