Blum 120 Degree Straight Arm Hinge for Face Frame Overlay Cabinets HOW TO CHOOSE THE CORRECT MOUNTING PLATE

STEP Measure your door overlay. The overlay is how much the door overlaps the cabinet. The following directions will tall you have to measure it. For further elevite states in a link.		XIMATE 'ERSION IART
following directions will tall you how to more it. For further elevitation, there is a link	1/8"	3mm
following directions will tell you how to measure it. For further clarification, there is a link on	on 5/32"	4mm
the product page with more detailed instructions.	3/16"	5mm
1 Close the cabinet door.	7/32"	5.5mm
	1/4"	6mm
Apply a piece of tape vertically to the hinged side of the cabinet so the edge of the ta is flush with the hinged edge of the door. This marks how much the door overlaps th		7mm
2 is flush with the hinged edge of the door. This marks how much the door overlaps the frame.	e 5/16"	8mm
	11/32"	9mm
Open the door until you see the edge of the tape between the door and cabinet. Mea		9.5mm
from the inside edge of the tape to the opening of the cabinet door. This is your overlay dimension.	15/52	10mm
	7/16"	11mm
STEP Once you know the bore distance and overlay of your door, you can use the chart below t	15/32"	12mm
3 determine which mounting plate you need. If you find that the chart gives you two mounting plate options, choose the plate where your overlay is closest to the middle of the range shown. This will give you the largest range of adjustment.	ing 1/2"	13mm
	17/32"	13.5mm
	9/16"	14mm
Example: if your overlay is 15mm and your bore distance is 5mm, then you have the option of choosing either the 3mm plate or the 0mm plate. While either will work, the best choice		15mm
would be the Omm plate because it provides slightly more room for adjustment.	5/8"	16mm
	11/16"	
		17mm
BOREDISTANCE	23/32"	17mm 18mm
