- Giving you USB-C charging or dongle connectivity
- USB 3.0 data transfer
- 31mm x 14mm x 7mm

- Premium audio speakers designed for music and speech
- Padded headband cushion
- 10 Voice prompt language versions
- 65mm leatherette ear cushion
- USB-A to USB-C Adapter

Benefits of being modular

Longer Life - Because of the modular design of this headset, the Discover Adapt 20 has the ability to be interchangeable, whether changing to a new wearing style, replacing a broken part or upgrading to a handy charging stand*.

- If a speaker / microphone or headband breaks out of warranty, you only have to replace half of the headset (one part), which means a longer life for the headset and a cost saving because you do not need to replace the complete headset.
- Switch from dual speaker to single* speaker wearing styles allowing users to confer with colleagues.
- New staff - replace the headband (the only part that comes in contact with skin), not the whole headset.

Cost of ownership is reduced - why change the whole headset when changing half is the solution!

* Available to buy as an optional extra
