

REACH SVHC Declaration

REGULATION (EC) No 1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) entered into force on 1st June 2007. Under REACH, one of the key requirements is the duty to communicate information on substances in articles.

Information for recipients and customers

According to Article 33 of REACH, any supplier of an article containing a substance meeting the criteria in Article 57 and identified in accordance with Article 59(1) (Substances of Very High Concern (SVHC)) in a concentration above 0.1 % weight by weight (w/w) shall provide the recipient of the article with sufficient information, available to the supplier, to allow safe use of the article including, as a minimum, the name of that substance.

The substance(s) listed below may be contained in the Roborock's products above the threshold level of 0.1% (w/w), but the applications are exempted from the restriction of RoHS Directive.

| Product Name | Substance name | CAS number | Application | Safe use information |
|---|-------------------|---------------|---|--|
| Robot Vacuum Cleaner, Robotic Vacuum Cleaner | Lead | 7439-92-1 | Lead as an alloying element in copper alloy parts(e.g. plug of power supply), and in high melting temperature type solders in certain electronic component (rectifier, zener diode) | These substances will not be released from the articles during normal or reasonably foreseeable conditions of use, but do not dismantle electronic components from the product and its accessories, and please keep electronic components out of reach of young children, and should not be sucked or placed in the mouth. This product and its electronic accessories (e.g. charger, cable) should not be disposed of with other household waste at the end of their working life, please take used electronic products to separate waste collection points. |

| | Lead titanium trioxide | 12060-00-3 | Sealing glass of electronic component (Crystal) | |
|-------------------------------------|----------------------------|------------|---|--|
| roborock Handheld Vacuum Cleaner | Lead | 7439-92-1 | Lead as an alloying element in copper alloy parts(e.g. plug of power supply), and in high melting temperature type solders in certain electronic component (rectifier, zener diode) | These substances will not be released from the articles during normal or reasonably foreseeable conditions of use, but do not dismantle electronic components from the product and its accessories, and please keep electronic components out of reach of young children, and should not be sucked or placed in the mouth. This product and its electronic accessories (e.g. charger, cable) should not be disposed of with other household waste at the end of their working life, please take used electronic products to separate waste collection points. |
| | 1,3- propanesulto ne | 1120-71-4 | The substance is used in the electrolytes for Liion battery | Never pierce the battery in any way in case electrolyte may leak. Battery should not be disposed of with other household waste at the end of their working life, please take waste battery to separate waste collection points. |

| MI Handheld Vacuum Cleaner | Lead | 7439-92-1 | Lead as an alloying element in copper alloy parts(e.g. plug of | These substances will not be released from the articles during normal or reasonably foreseeable conditions of use, but do not dismantle electronic components from the product and its accessories, and please keep |
|-------------------------------|------|-----------|---|---|
| | | | power supply), and in high melting temperature type solders in certain electronic | electronic components out of reach of young children, and should not be sucked or placed in the mouth. This product and its electronic accessories (e.g. |
| | | | component (rectifier, zener diode) | charger, cable) should not be disposed of with other household waste at the end of their working life, please take used electronic products to separate waste collection points. |
