

FJAKA

THE ESSENCE OF RELAXATION

our
story

Welcome to FJAKA – based on the embodiment of a unique lifestyle where outdoor furniture meets the art of relaxation and happiness.

FJAKA is often associated with taking it easy, embracing a slow pace of life and finding joy in simple pleasures. We believe in the power of FJAKA, and we strive to create outdoor furniture that evokes this feeling. FJAKA is a Dutch brand that is specialised in outdoor furniture. We work closely with designers, architects, and creatives to create inspiring outdoor spaces that are both functional and aesthetically pleasing.

Whether it is an inviting easy chair that cradles you in comfort or a dining table that encourages long and slow evenings with your loved ones, at FJAKA we got you.

Our showroom is in Amsterdam, where we are inspired by the creativity and diversity from the city. From this central location, we serve our customers worldwide and provide our service, from advice and design to delivery and support. We are all about enchanting your outdoor life. Enter the world of FJAKA and discover how we take the essence of relaxation to the next level.

— | a Pomalo state of mind -
take it easy and slow down

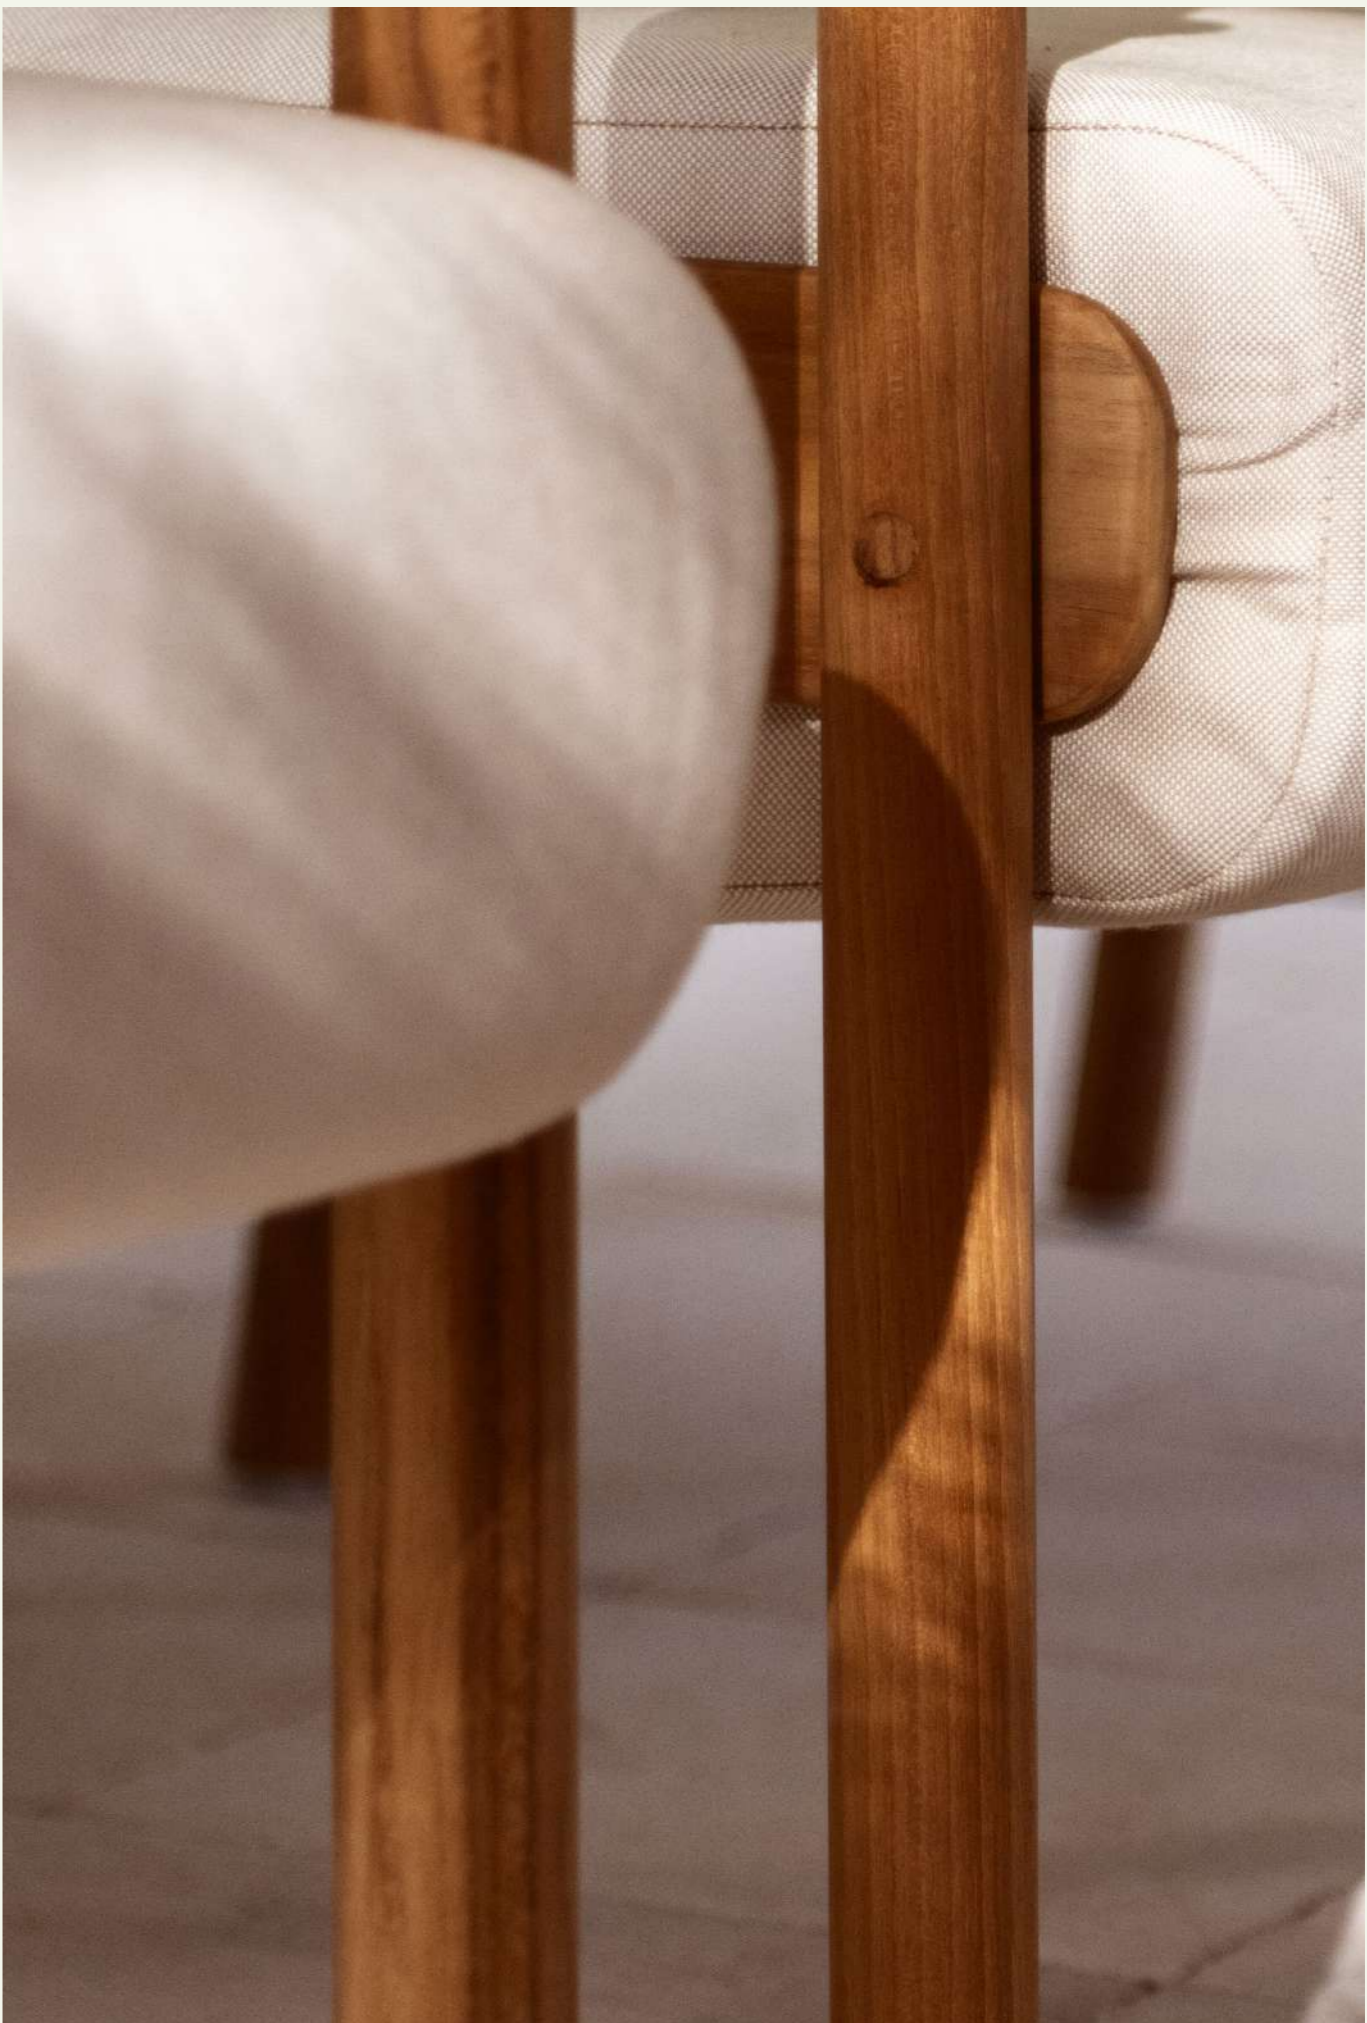

The Pomalo collection is a carefully designed collection of outdoor furniture that is all about the essence of a Pomalo state of mind -taking it easy and slowing down. Inspired by the Dalmatian coast, Pomalo signifies a tranquil approach to life. This collection aims to bring that serene ambiance to your outdoor spaces.

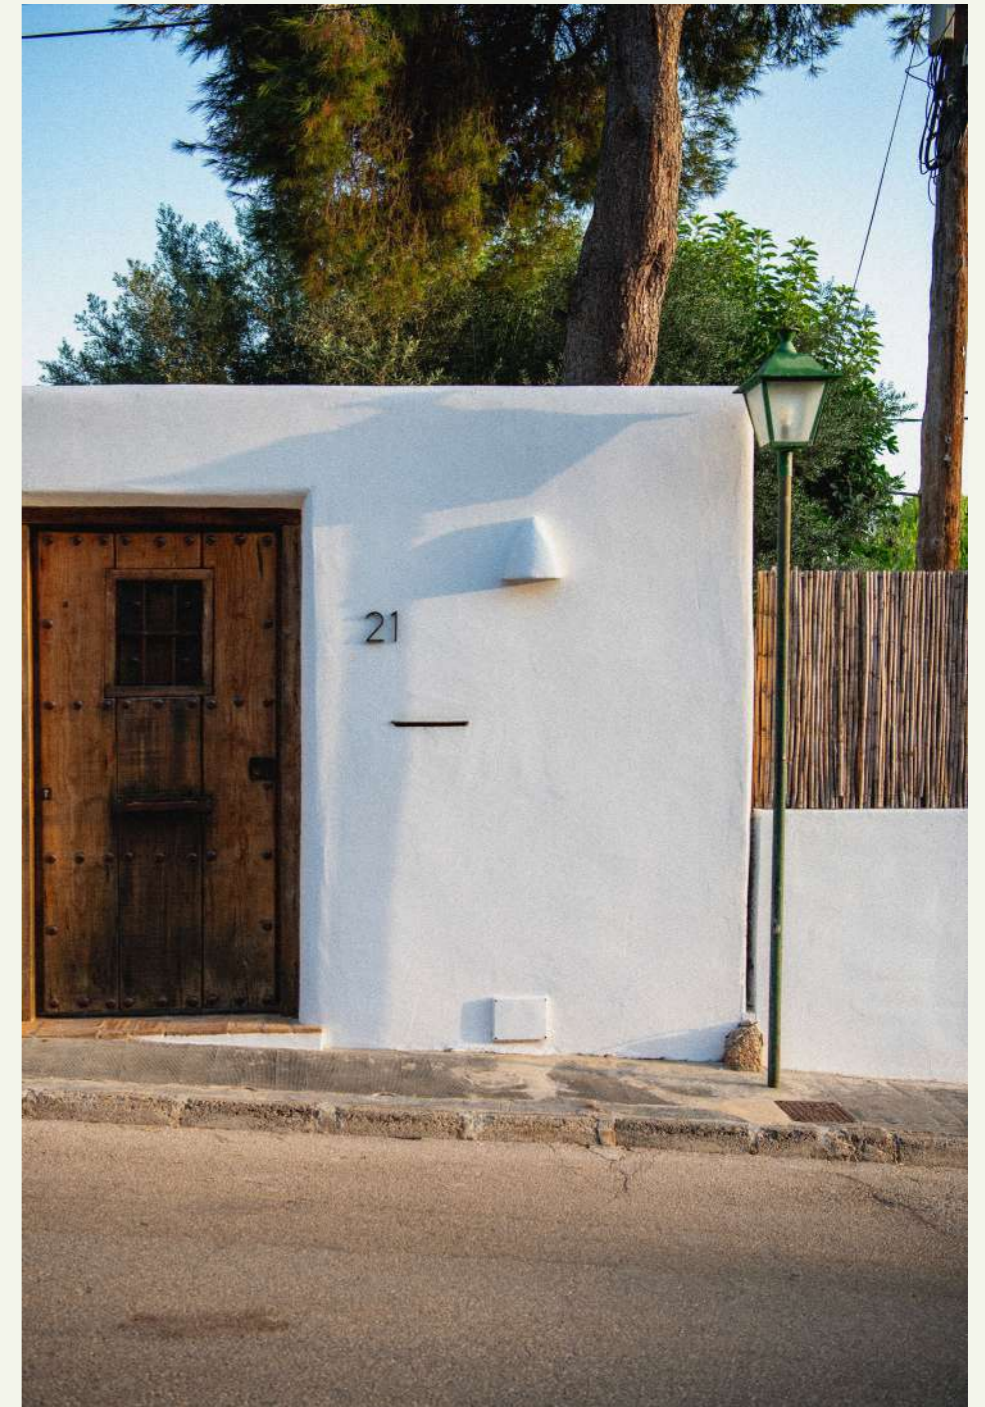

The Pomalo dining includes a dining table and solid
teak wood chairs based on an aluminium frame.
Fabric available in different colours.

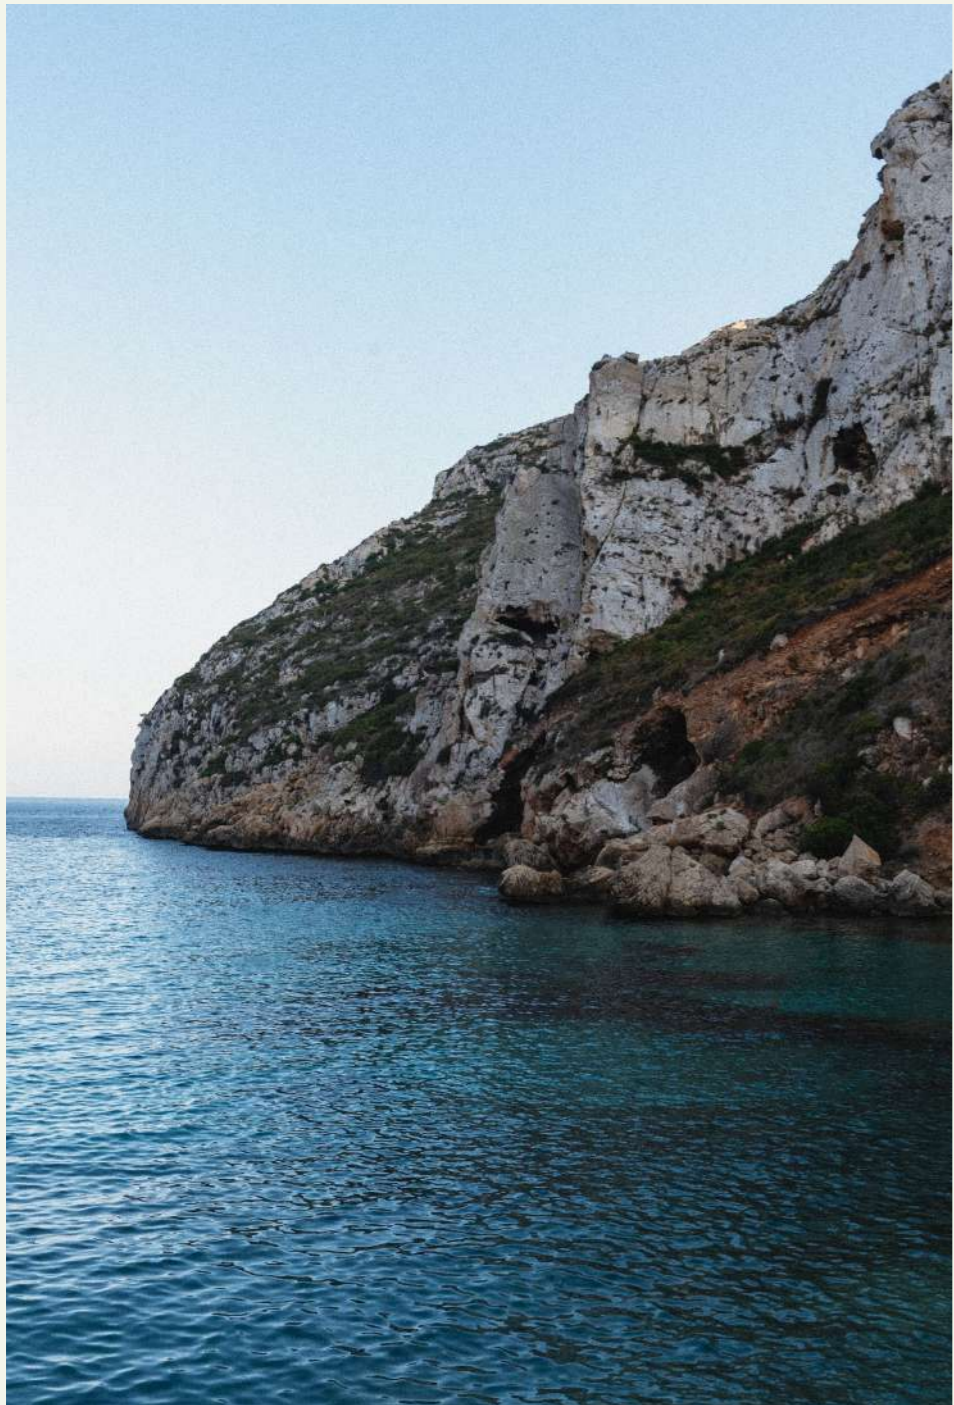

The Pomalo sun includes a sunbed which is adjustable in height. Sunbeds are solid teak wood and based on an aluminium frame. Fabric available in different colours.

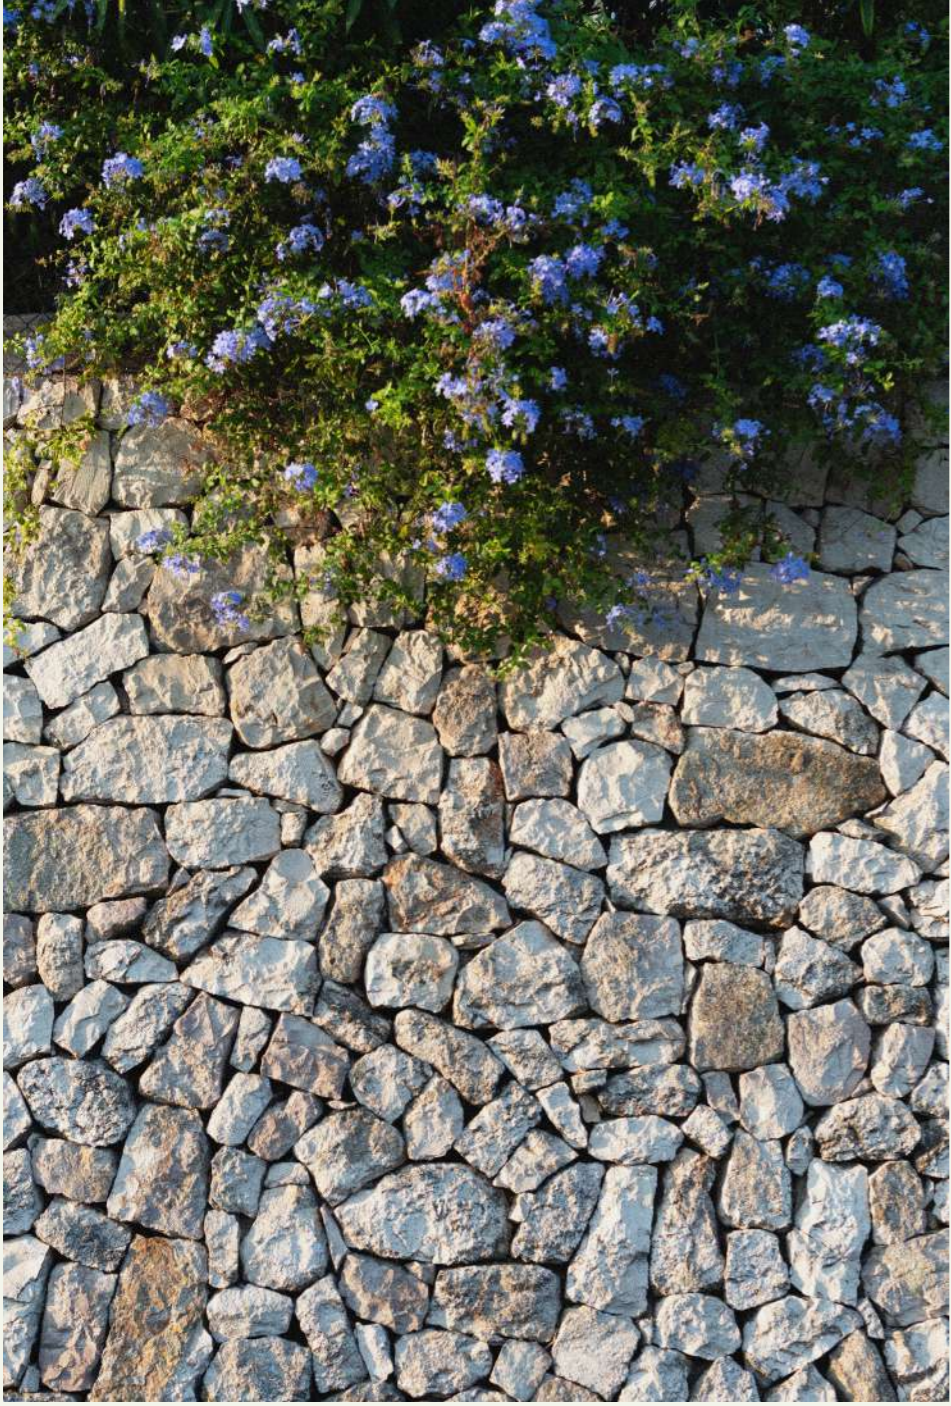

The Pomalo lounge includes an easy chair, a two-seater, a three-seater, a lower coffee table, and a side table. All chairs are solid teak wood and based on an aluminium frame. Tables are solid teak wood. Fabric available in different colours.

available. Quick Dry foam

exploring
creativity

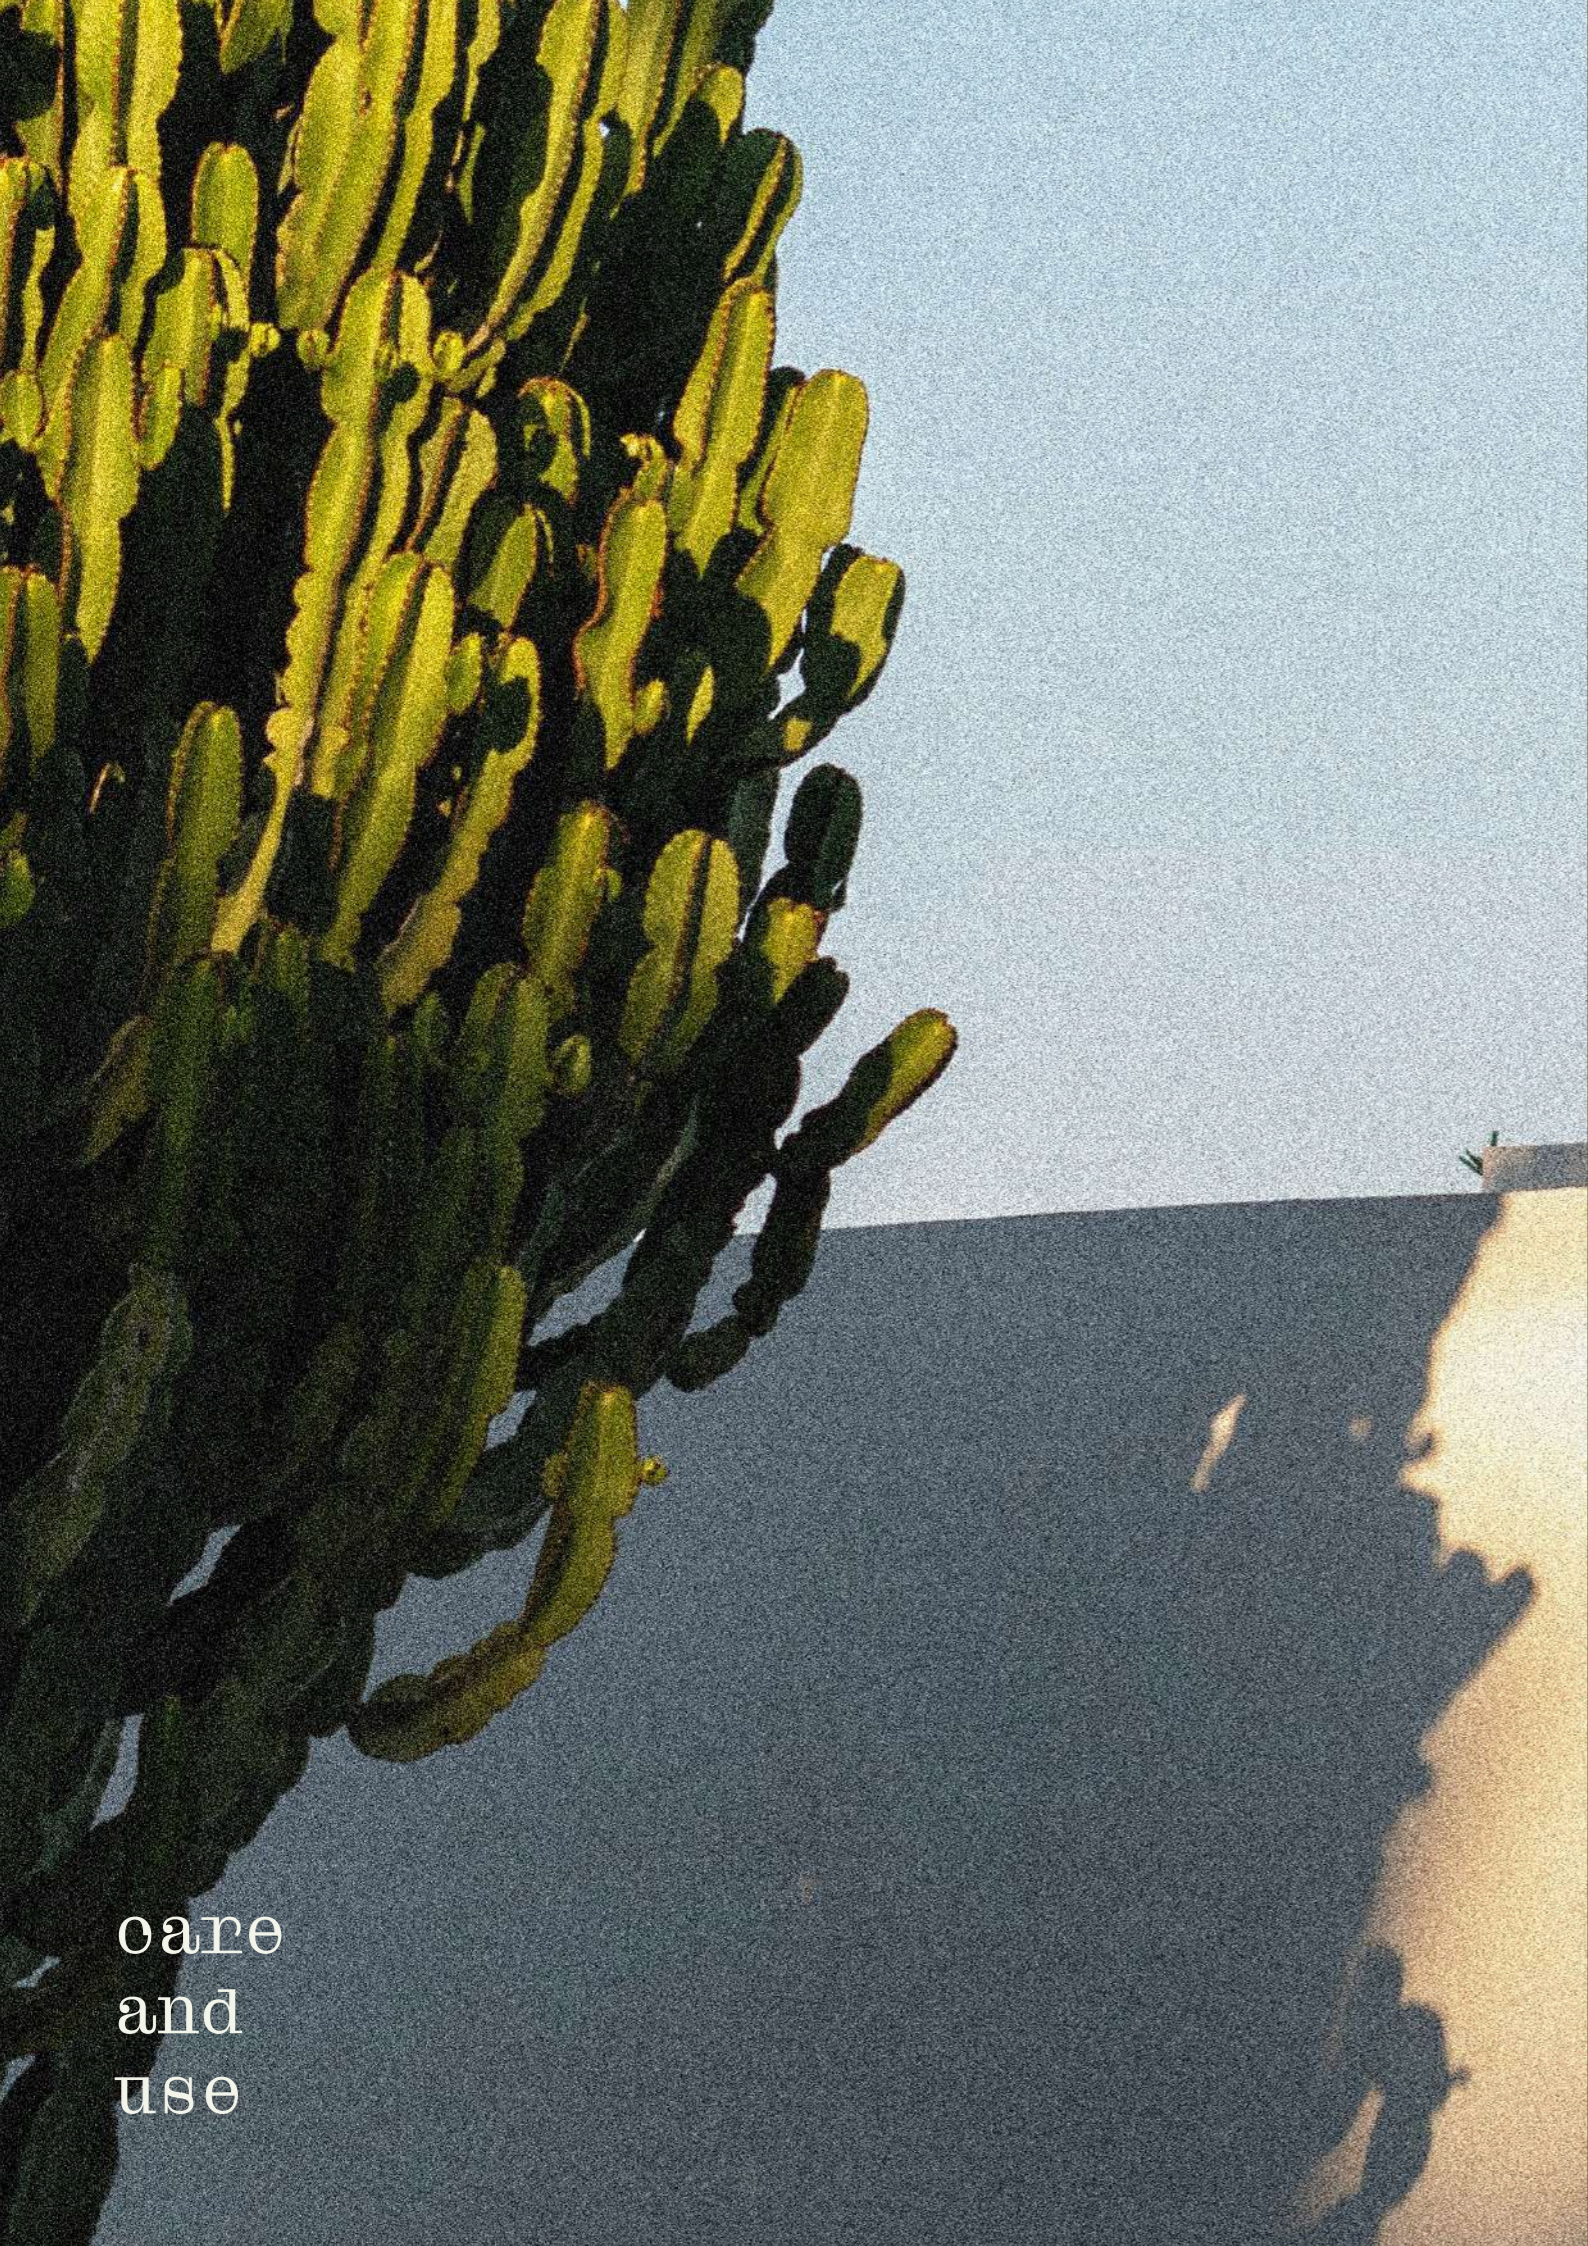

Exploring creativity – the collaboration between Jessica Bataille and FJAKA.

We believe that the true beauty of our outdoor furniture is found in the synergy of design, craftsmanship, and the remarkable spaces they adorn. It is with great pleasure that we introduce our collaboration with Jessica Bataille.

With more than two decades of experience in the world of interior design, Jessica Bataille is a distinguished visionary who has left her indelible mark on the industry. Born in Holland to a Dutch father and a Lebanese mother, Jessica's multicultural background adds a unique and enriching dimension to her creative process. Her journey led her to Jávea in Spain at the age of 12, where she found not only her base but also an endless source of inspiration. Over the years, she has gathered around her a dedicated team that brings her imaginative concepts to life with finesse and precision.

Our collaboration thrived amidst the inspiring landscapes of Jávea. Here, we had the privilege to conduct a photoshoot within the environs of "La Siesta", a beautifully renovated villa that is just one of the remarkable projects in her portfolio. Her visionary creativity seamlessly aligns with FJAKA's philosophy of embracing relaxation, happiness, and the true essence of outdoor living.

The outcome? A mesmerizing brochure that complements our outdoor furniture and Jessica's creativity. Curious to see more from Jessica's projects? Visit her website to explore her world of design and inspiration: www.jessicabataille.com.

Embrace the timeless allure of nature with FJAKA. Our collections are crafted from teak wood and encapsulate the essence of the beauty of nature.

Wood's response to fluctuations in humidity and temperature is well-known. Thus, we suggest maintaining stable conditions whenever possible. The ideal relative humidity range is approximately 40 to 60 percent, accompanied by an optimal room temperature of around 20° Celsius.

As outdoor furniture is exposed to daylight and various climates, it naturally undergoes changes in color and texture. Our four types of wood have their own unique characteristics in this regard.

For the best care and use, complement your FJAKA pieces with our rain covers. These protective shields ensure that your furniture remains as stunning as the day it arrived, even when facing various weather conditions.

care
and
use

We believe in the importance of preserving and protecting nature in its fullest sense. From the initial manufacture of our furniture to its final delivery to our customers. At FJAKA we thrive to reach a production cycle that is durable, sustainable, and have as little impact on nature as possible.

The origin of our wood

As well as being important for the environment, wood is renowned for its quality and durability. To create a sustainable production cycle, the wood used in our products comes exclusively from controlled plantations that follow strict reforestation procedures. Therefore, all our products are accredited with the FSC label (Forest Stewardship Council). The FSC label is the world's most trusted mark for sustainable forestry. Trees are harvested responsibly so there is no net loss of forest over time.

Wood that originally comes from Indonesia is certified with a V-legal certificate. This certificate ensures the protection of the forest from illegal logging.

A greener approach to packaging

We recognize the significance of minimizing our impact on the environment. That is why we have a zero single-use plastic campaign. Our packaging consists of recyclable and biodegradable materials such as paper and cardboard materials.

Reducing toxic substances

Another essential aspect of our journey towards a sustainable production cycle is the integration of water-based paints and coatings in our products. This deliberate choice ensures the exclusion of toxic or environmentally harmful substances.
