

by GussyUp LLC

Your Partner in **Dietary Supplements, Personal Care–Skincare Innovation!**

Welcome to the world of Las Vegas Labs, where creativity meets expertise, and innovation intertwines with quality. GussyUp LLC, also known as Las Vegas Labs, based in the vibrant heart of Las Vegas, is your premier contract manufacturer specializing in crafting top-notch dietary supplements, personal care & skincare products for both men and women. With a strong focus on private label services, our dedicated team is committed to tailoring custom formulations and packaging solutions that cater to your brand's distinctive vision.

Unveiling the Art of Product Development:

At Las Vegas Labs, we weave a tapestry of creativity, innovation, and continuous improvement in every facet of technology and ingredient formulation, setting us apart as trailblazers in the industry. Renowned dietary supplement and personal care brands have chosen Las Vegas Labs as their trusted partner for product development and manufacturing.

Our deep expertise spans a wide spectrum of specialty dietary supplement formulations including Vitamin & Protein Drinks, Gut Health, Heart Health, Joint and Pain, and Cognitive Brain Supplements in Liquids, Capsules and Powders. On the skincare side specialty formulations, including rejuvenating serums, revitalizing exfoliators, luxurious creams, invigorating oils, and soothing cleansers.

Our on-site Research and Development (R&D) department stands ready to deliver high-performance formulas with rapid turnaround times. We're more than just a manufacturer; we're your companions throughout the entire journey, from concept inception to formulation brilliance, regulatory navigation, meticulous production, rigorous testing, and unwavering quality control.

Guided by Experienced Chemists and Technicians:

Our seasoned chemists and technicians are your partners in achieving excellence. We're well-versed in adhering to diverse standards, from Whole Foods and Sephora to Credo and EWG. We tackle complex formulas, such as high SPF mineral sunscreens and complex Gut Health Probiotic formulations, with finesse. Our formulations effortlessly meet both U.S. and international requirements, and we're masters at tweaking, re-engineering, replicating, and validating existing formulas to ensure compliance with regulations and contemporary market trends. Our pursuit of cost-efficient solutions is matched only by our dedication to leveraging the latest breakthroughs in technology and ingredients. And, if your focus is on natural products, fear not – we're adept at crafting formulations compliant with USDA, cGMP, 21 CFR 111, NSF305/ANSI, NPA, and Ecocert standards.

- ✓ Massage Lotions & Scrubs
- ✓ Intimate Care Products
- ✓ Hair Care
- ✓ Men's Products (Shave, Beard, Hair Pomades)
- ✓ Natural Formulas

Empower Your Brand with Our Partnership:

DISCOVERY:

Our journey begins by joining forces with you to explore the landscape and define the objectives for your brand and product. We delve into influential brands, competitors, and markets shaping your product needs. We identify ingredient prerequisites or limitations, potential distribution channels, packaging considerations, as well as target pricing and volume requirements.

RESEARCH & DEVELOPMENT:

Our expert manufacturing team, in collaboration with R&D, takes your vision to the production floor. We work hand in hand, researching cutting-edge ingredient technologies and cost-effective options. The result? Your formula is poised for the production phase.

CAPABILITIES:

We boast a comprehensive array of manufacturing equipment designed to cater to your production demands. From double-jacketed mixing tanks spanning 20 to 1,000 gallons to over 25 years of compounding mastery in the dietary supplements and personal care arena, we're equipped for excellence. Our fillers—**rotary, in-line, tube, hot pour**—offer versatility and efficiency. Our capsule making hits over **175,000 per hour** and our powder augers **fill over 3,600 bags per hour**. And our labeling, induction sealing, tamper-proofing, and carton solutions are tailored to your needs. With ample capacity, we're primed to grow with you!

QUALITY CONTROL & TESTING:

Once your product earns the seal of approval, rest assured it undergoes stringent quality control and testing protocols. Raw materials are meticulously screened against standards, packaging components are rigorously inspected upon receipt, and each product batch is subjected to thorough composition and formulation assessments during compounding. Before packaging, each fill or pour is scrutinized for accurate weight and labeling.

Las Vegas Labs follows a meticulous supplement manufacturing process that exceeds cGMP industry standards. Their process includes:

- 1 Raw Materials:** Sourcing high-quality ingredients with rigorous supplier vetting and 3rd party testing. Complete traceability to origin.
- 2 Custom Formula Development:** Creating safe, effective formulas based on research and experience.
- 3 Batch Production:** Using detailed records for consistent, transparent manufacturing.
- 4 Quality Control:** Conducting thorough 3rd party tests to ensure purity, potency, and quality.
- 5 Packaging and Labeling:** Ensuring compliant, accurate product presentation.
- 6 Master Batch Record:** Standardizing processes for consistent product quality.

COMPLIANCE & CERTIFICATIONS:

Regulatory adherence is paramount at Las Vegas Labs. Our robust quality system and Standard Operating Procedures (SOPs) ensure compliance with regulations from the FDA, cGMP, EU, and state-level agencies. We're dedicated to safeguarding your brand and consistently delivering unparalleled quality.

JOIN HANDS WITH

Elevate your brand with Las Vegas Labs's passion for innovation, precision, and excellence.
