RIANNA + NINA
continues their
trademark blend of
vintage and modern
with the release of
their new Bonbon
Bag, on June 10th.

Bonbon Bag

Over many years of travel, Rianna and Nina have gathered an impressive array of top-tier, one-of-a-kind fabrics. The new Bonbon Bag from RIANNA + NINA selects beautiful vintage silk scarves from Rianna and Nina's archives and transforms them into single, elegantly composed works of art.

Each bag's exterior is composed of a luxuriously soft silk scarf, while a unique second silk scarf comprises the bag's handle. This handle does more than provide a sophisticated visual contrast – by cinching the scarf handle, the Bonbon Bag becomes a clutch; by loosening the handle, it shifts into a timeless shoulder bag.

Lining the inside of every bag is vibrantly-coloured calf leather. This high-end interior gives the bag a refined look while ensuring it will last a lifetime of events, parties and special occasions.

Every bag produced is one-of-a-kind, and as no two bags are alike, once a bag is sold, it cannot be recreated.

"There's a special feeling that a piece like this gives you," Rianna explains. "Not only is each piece one-of-a-kind, but every vintage fabric within it tells a story of its own. There is a personality to this exclusivity that makes our Bonbon Bags look and feel beautiful."

The Bonbon Bag also represents Rianna and Nina's continuing commitment to sustainability, as each piece is made with reinterpreted vintage luxury fabrics.

No matter how special the occasion, there's sure to be a Bonbon Bag to match it.
