WHEN YOU ORDER YOUR NORWOOD BAND SAWMILL TODAY, WE'LL ALSO SEND YOU YOUR

FREE NORWOOD "OWNER'S EDITION" HAT

Only for Norwood Owners, this special-edition cap isn't available to the general public.

ORDERING IS EASY ...

- 1. Choose your equipment** – Pick the mill that’s right for you, then accessorize it to meet your exact needs.
- 2. Choose how you want to receive it** – Shipped right to your door, or you can pick-up at a Norwood factory warehouse.
- 3. Call TOLL-FREE at 1-800-567-0404** for a quote and to place your order or visit us at **NorwoodSawmills.com** to order online.

▶ **LOW FREIGHT COSTS**

Your Norwood can be shipped right to your front door for a lot less than you think – often for just a few hundred dollars. That’s because every Norwood mill is compactly packaged in kit-form on a single pallet so you don’t pay to ship air! Second, Norwood’s high shipping volumes have earned the industry’s biggest discounts on freight rates. Third, our carriers compete for each and every shipment, so you get the absolute lowest delivery rate possible.

Want all the numbers? Once you call, you can have your complete sawmill quote, including shipping, usually the same day. Call **1-800-567-0404** to get your personalized sawmill quote.

▶ **IN STOCK! GET STARTED TODAY**

We try to keep a large inventory of equipment which means we can usually ship your order off the loading dock in just 3 business days. Once your sawmill leaves the factory, it typically only takes about 3 to 10 business days to arrive at your door (within the lower 48 states and, in Canada, within the 10 provinces). Longer transit times may apply to more remote destinations. Call for availability and lead-times.

▶ **FREE CONSULTATION WITH A SAWMILLING SPECIALIST**

Speak with one of Norwood’s factory-trained specialists for a free consultation about your sawmilling and log harvesting needs. Even just a few minutes can be time well spent to explore your wood processing needs with a professional, and to match you with the perfect sawmill configuration for your milling operation. Rest assured, there is no obligation. This is a service we are happy to provide future sawyers.

▶ **TO CONFIGURE YOUR MILL, GET A QUOTE & GET YOUR NORWOOD ON THE ROAD**

Call **1-800-567-0404** from anywhere in the U.S.A. & Canada, Monday to Friday.

▶ **SETTING UP YOUR MILL**

Building and setting up your mill isn’t rocket science – most owners handle it in a weekend. And you’ve probably already got all the tools you need: combination and Allen wrenches, Phillips screwdriver, ratchet wrench with set of sockets, grease gun, adjustable wrench. If you can use these tools, you’ve got all that’s needed to assemble a Norwood.

To help you put it together, we give you a fully illustrated manual that leads you, step-by-step, through the whole process. It’s packed with exploded diagrams, cutaways, photographs and checklists – all written in plain English.

And we are here to help with lifetime toll-free support – from the moment your Norwood arrives, to your first cuts, to full production and beyond. Plus, you have unlimited access to Sawmill TV, Norwood’s online “TV” channel devoted exclusively to sawmills and successful sawmilling; it’s packed with 100’s of how-to videos that cover the ABCs to advanced sawing know-how.

*My Norwood mill was easy to set up and easy to operate.
It works all day and doesn't break down.
I've owned mine for over five years and have never had a breakdown.

NORWOOD[®]
SAWMILLS

NorwoodSawmills.com

GUARANTEE

We know that you will be 100% satisfied with the value and performance of your Norwood equipment. We back that up with a 30-day money-back guarantee. If your Norwood equipment doesn't do everything we say, simply return it to us within 30 days after which we'll send you a refund (less the value of used blades and missing or damaged parts; shipping not included).

WARRANTY

We're so convinced of the quality and durability of our band sawmills, that we will repair or replace at our discretion any part returned to us and found to be defective through manufacturing within the first two years of the original purchaser's ownership, with the exception of consumable items such as belts, blades, battery, bearings, etc... Norwood offers a one-year limited warranty on the PortaMill, Log Moulder, hydraulics and most other equipment. Engines are covered by a 2-year warranty directly with the engine manufacturer. Ask for full details.

SHIPPING & DELIVERY OPTIONS

Because of our high volumes and negotiated discounts with a select group of freight companies, we can offer you the lowest possible shipping charges. Orders are shipped prepaid, which means that the shipping charges are paid at the time of your order.

In the U.S.A. and Canada, Norwood band sawmills and oversize orders ship by common-carrier freight truck directly to your residence or business so it is important that your delivery address is easily accessible to a tractor-trailer. Shipped in knock-down form, we package oversize orders on a 4' x 4' (1.2m x 1.2m) and 4' x 6' (1.2m x 1.8m) pallets and we band and stretch-wrap your order for secure shipping.

Most trucking companies require the driver to bring the shipment to the back of the truck. Because your sawmill order is shipped in knock-down form and consists of individual pieces and boxes each weighing up to 100 lbs., you can offload your order box by box and do not necessarily need special forklift equipment. If you cannot manage weights up to 100 lbs., you may want a helper to assist you to unload your order.

You or your designated agent must be present to accept the order and off-load it. If no one is at the delivery address to accept the order, redelivery and storage charges may apply. After your order has shipped, you may want to call the trucking company to confirm date of delivery; call us to obtain your carrier name and phone number, shipment tracking number and ship date.

If you would like to pick-up your sawmill order direct from one of Norwood's factory warehouses, call us toll-free at 1-800-567-0404 at least three (3) business days in advance so that we can have your order ready. You will need a pick-up truck, full-size van or enclosed trailer to pick up your sawmill or oversized order.

PAYMENT OPTIONS

We accept bank transfers, bank (cashier's) checks, Visa, MasterCard and PayPal. All but the bank transfers undergo security verifications. Please note that where payment is made by credit card, Norwood can only ship to the same cardholder's address that the issuing bank has on file; if picking up, you must PIN your card. If payment is received by PayPal, Norwood must ship the order to the purchaser's secure verified PayPal address and pick-up is not feasible. All orders are to be prepaid in full prior to shipping.

SHIPMENT OUTSIDE OF THE U.S.A. & CANADA

Not in the U.S.A. or Canada? Norwood services over 100 countries worldwide either factory-direct or through Norwood's network of authorized international dealers. Contact us to learn more at +1-705-325-0030 or by email at info@NorwoodSawmills.com.

IMPORTANT: To ensure that you receive the best possible value, Norwood ships all equipment in knock-down form with step-by-step assembly instructions and detailed illustrations, exploded views and photos.

IMPORTANT: In all cases, before signing for any shipment (by signing the freight waybill or packing slip), check your order carefully upon delivery to ensure that you receive all pieces and boxes listed on your packing slip and that they are all in good order. All claims not reported in writing on the freight waybill at the time of delivery become the sole responsibility of the purchaser; failure to report missing or damaged pieces and boxes in writing on the freight waybill at the time of delivery nullifies your insurance and precludes any subsequent claims.

DISCLAIMER: Specifications, designs, descriptions, illustrative material and prices in this and all Norwood print and on-line media are as accurate as known at the time of publication, but are subject to change without notice. Horsepower (hp) ratings are shown as gross horsepower output representing a particular engine's maximum output under ideal conditions and are not a measurement of the engine's as-installed net horsepower output. Illustrations may include optional equipment and accessories and may not include all standard equipment. This literature has been compiled for worldwide circulation; while general information, pictures and descriptions are provided, some illustrations and text may include product features, options and accessories not available in all regions.
