## PPAR Delta Mouse Monoclonal Antibody(2F9)

Catalog No.: RA10080

### Basic Information

#### Information

|                            |                                                                        |
|----------------------------|------------------------------------------------------------------------|
| Reactivity                 | H,M,R                                                                  |
| Immunogen                  | Recombinant Protein                                                    |
| Host                       | Mouse                                                                  |
| Isotype                    | IgG1                                                                   |
| Storage Buffer & Condition | 1mg/ml in PBS, pH 7.4, containing 0.02% sodium azide and 50% glycerol. |
| Observed MW                | 50KD                                                                   |

#### Applications

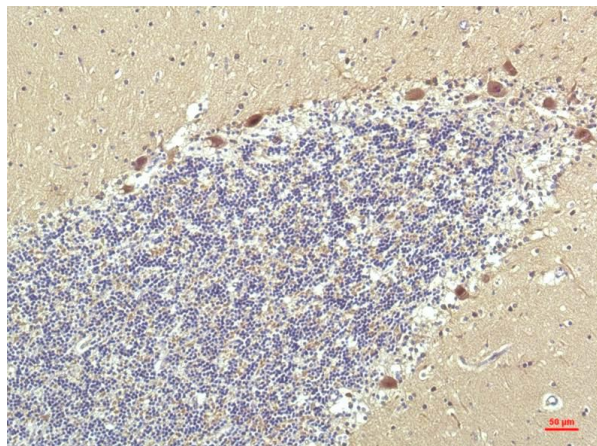

#### Recommended Dilution

|     |               |
|-----|---------------|
| WB  | 1:1,000-2,000 |
| IHC | 1:100-200     |

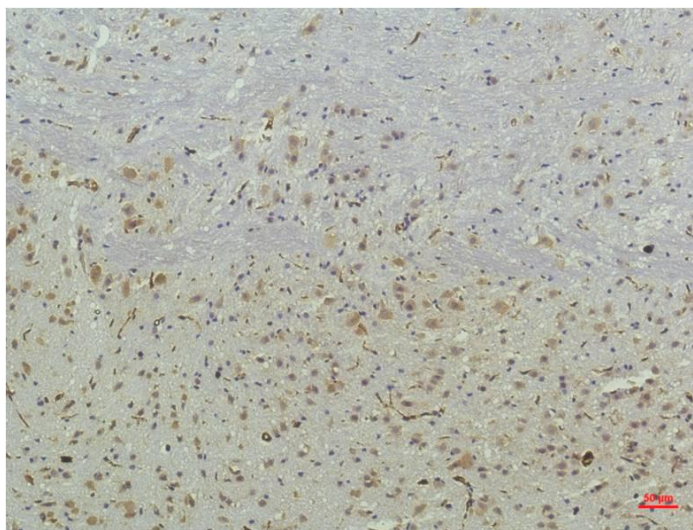

#### Preparation & Storage

|          |                                                                |
|----------|----------------------------------------------------------------|
| Storage  | Store at -20°C. Stable for one year from the date of shipment. |
| Shipping | Bule Ice                                                       |

## Experimental Data

Immunohistochemical analysis of paraffin-embedded Human Brain Tissue using PPAR Delta Mouse mAb diluted at 1:200.
