ZEPHYR

Zephyr lamp is a sculptural light fixture inspired by the dualities of life. The enamelled and copper surfaces alternate amongst each other and represent the concept of 'Day and Night'. The voids between the plates allow for a light breeze to flow through, thus inspiring the name Zephyr

LUNA LAMP

So Luna is a moon, covering the landscape with mysterious specks of light. Faceted teak wood base with Brush finished brass shade.

THE BLOM CASCADE

This regal light piece brings a heady bouquet of Heliconia flowers, Orchids and tropical plants into the space it adorns. Cascading Copper metal flowers with rich mauve patina, red copper blossoms and green patina tropical leaves come together in this abundant, profuse, botanical beauty. The unique blend of brass and copper radiates graceful harmony.

PETITE BLOM

Evoking the Heliconia's rhythmic motion, the lamp features a swirling brass base and graceful copper petals gently arching downwards, enclosing the light source in an embrace that exudes serenity and sophistication.
