

INTRODUCTION

Though young children will not understand all the teaching in *Glorious God, Glorious Gospel*, the Holy Spirit is faithful to work through the Word of God and the faithful instruction of godly parents. God is actively pursuing the hearts of the next generation as He builds His church and raises up worshippers who give everlasting praises to the triune God. He has intentionally made the broad truths of the Gospel simple enough for young children to understand—though the deeper, more precise truths may take years to comprehend.

As your family reads, discusses, and applies the truths expressed in *Glorious God, Glorious Gospel*, there will be periods in which the minds of young children wander and these little ones become restless. This coloring book can be used in those moments to keep your young child engaged with the family during your devotional time. Often when little fingers are busy, little minds can refocus and absorb the main ideas you are presenting. Do not be discouraged by fidgety children. They are often absorbing more than is apparent.

You can also use the coloring book as a review tool, with the title expressing the main idea of each chapter, the picture illustrating the overarching application, and the verse expressing the truth about our glorious God and His glorious Gospel.

01 // KNOWING GOD'S WORD

Every word of God proves true;
—PROVERBS 30:5A
