RING SIZE CHART

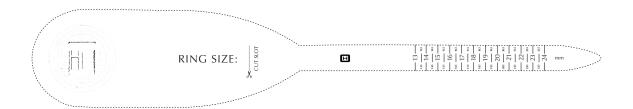

For accurate measurement of your ring size, please print this guide on an A4 size (210 x 297 mm) page at 100% scale. To confirm that the chart has printed correctly, place a credit card on the designated line below—it should match in width.

PLACE CREDIT CARD HERE

Use a well-fitting ring as a reference to find your perfect size by matching the inside of the ring to the nearest circle below, or borrow a similar ring if it's a surprise. For maximum comfort, choose the larger size if you fall between two sizes.

You can alsodetermine your ring size with our finger sizer. Simply cut along the dotted line and insert the pointed end through the slot. Wrap it around your finger and slide it to the widest part, then tighten it until snug. Your ring size will be displayed in the slot. No need to add extra size for comfort, as we have already accomodated for this.
