#### **HOW TO READ PATTERN**

Each solid square is equal to a "block" of "dc in next dc, dc in next 2 sts or ch-2 space, dc in next dc". Each open square is equal to a "space" of "dc, ch 2, skip next 2 sts, dc."

The dc at the end of each square also counts as the first dc of the next block or space. For example, a block followed by a space = dc in next 4 sts, ch 2, skip next 2 sts, dc in next dc.
