A 25x25 grid representing a Latin square. The grid is divided into four quadrants by a horizontal line between rows 12 and 13 and a vertical line between columns 12 and 13. The top-right and bottom-left quadrants are empty. The top-left and bottom-right quadrants contain a pattern of black squares and arrows. Arrows point from (row, column) to (row+1, column+1). The pattern of black squares and arrows is symmetric across the anti-diagonal from (1, 25) to (25, 1). Specifically, black squares are located at (row, column) where (row, column) is on the anti-diagonal or (row, column) is one step away from it in the top-left or bottom-right direction. Arrows point from (row, column) to (row+1, column+1) for all (row, column) such that (row+1, column+1) is within the grid and is a black square.
