CUTTING

Note: Plush fabric has a nap, so place all tops in the same direction.

From yellow plush, cut:

(1) each Body Front, Lower Body Back and Upper Body Back, using the pattern provided; transfer the markings to the cut front

From orange felt, cut:

(1) square, 1" (2.54cm), for beak
(4) squares, 3" (7.62cm), for feet
Seam allowances are 1/4" (.64cm)

ASSEMBLING THE CHICK

FRONT

1. Sew on a wiggly eye at each eye dot.
2. Fold the beak square in half diagonally and position the fold along the beak marking. Stitch in place. If desired, loosely hand tack the beak layers together.
3. Place two orange felt squares wrong sides together. Using the removable marker, trace the foot shape onto the top square. Using a very narrow, close zigzag, sew around the foot marking. Repeat for the second foot. Carefully trim each foot shape just outside the zigzag stitching.
4. Mark the lower center point of the body front. Matching the foot upper edge to the lower body edge, baste the feet in place 1/2" (1.27cm) from the center.

ASSEMBLING THE CHICK

1. Sew the upper and lower back body pieces together at the straight edge, leaving a 2" (5.08cm) opening.
2. Place the back and front right sides together and sew around the body shape. Turn the body through the back opening.
3. Stuff the chick to the desired fullness and hand-stitch the opening closed.

TIP: Use a walking foot when sewing plush to keep the layers from shifting.
