

# **FELTED SHOPPING BAG**

#### Important to know before felting

- Record all the measurements and changes before and after felting. You will be able to adjust the method to produce proper results.
- Always test a sample. Different colored yarns may felt differently.
- Colorfastness can be affected by very hot water.
- Any knitting that has been properly felted becomes very dense and matted.

# **How To Felt**

- Using low water level, run a Hot/Cold cycle for 5 to 15 min. Add a pair of old jeans for agitation.
- Add 2 tablespoons of baking soda for a small load. After one cycle, check for size. Repeat if necessary.
- Run through the rinse and dry spin cycle.
- Do not use a clothes dryer.
- Shape piece to correct measurements.
- Lay felted piece on a dry towel, away from direct heat or sunlight.
- If an edge ripples, baste a thread through the edge and gather in.
   Remove the thread after the felting is dry.

**MEASUREMENTS:** Approx 16 ins [40.5 cm] wide by 12 ins [30.5 cm] tall, excluding handles.
