

# Patons® Classic Wool

  
**Patons® Classic Wool**  
**FELTED "TRICOT"**  
**BAG**

## FELTED MEASUREMENTS

Approx 13 ins [33 cm] wide x 11½ ins [29 cm] high (excluding strap).

## MATERIALS

### Patons® Classic Wool

(100 g / 3.5 oz)

**Main Color (MC)** (204 Old Gold)

**4 balls**

**Contrast A** (226 Black)

**1 ball**

Size 4.5 mm (U.S. 7) knitting needles **or size needed to obtain tension.** Set of snap fasteners.

## TENSION

20 sts and 26 rows = 4 ins [10 cm] in stocking st.

## INSTRUCTIONS

### Back, Front and Pocket

With MC, cast on 90 sts.

Work 42 ins [106.5 cm] in stocking st, ending with RS facing for next row. Cast off.

### Handles (make 2)

With MC, cast on 11 sts.

Work 28 ins [63.5 cm] in seed st. Cast off.

## FINISHING

Felt all pieces.

Felted piece for Back, Front and Pocket should measure approx 15 ins [38 cm] wide and 31½ ins [80 cm] high.

Cut Front and Back of Bag 13 ins [33 cm] wide by 11½ ins [29 cm] high. Cut Pocket 10½ ins [27 cm] wide by 5½ ins [14 cm] high. Shape bottom corners (see Cutting Diagram).

With A, blanket st top of Front and Back. With A, blanket st around Pocket.

Using A and stem st, embroider "Tricot" onto Pocket as shown on Diagram.

With A, WS facing of Front and Back tog, blanket st sides and bottom of Bag. Blanket st top of Bag.

Sew Pocket to Front as illustrated.

Trim Handles to measure 21 ins [53.5 cm] long. With B, blanket st around Handles. Sew Handles in position as illustrated. Sew snap fasteners on inside.

## "Tricot" Diagram

**Note:** Enlarge this diagram 300%.  
Trace onto Pocket with carbon paper for embroidery.

# HOW TO FELT INSTRUCTIONS

## FELTING

- Put pieces in top-loading washing machine. Put in a pair of jeans or large towel (in non-interfering color) for extra agitation. Using low water level, run a Hot/Cold cycle for 15 min.
- Add 2 tablespoons of baking soda for a small load. After one cycle, check for size. Repeat as necessary.
- Run through the rinse and dry spin cycle.
- Lay felted piece on a dry towel, away from direct heat or sunlight.
- Shape piece to correct measurements.
- Allow to dry thoroughly. Do not use a clothes dryer.
- If an edge ripples, baste a thread through the edge and gather in. Remove the thread after felted item is dry.
- When piece is dry, use tailor's chalk to mark cutting (trimming) lines.

## AFTERCARE

- You have spent a lot of time and care completing these items through their knitting/crocheting and felting stages. A little thought to aftercare will ensure that you will have these beautiful felted items for many years to come.
- After you have subjected your item to the felting process, you may think that it has gone through the most vigorous and tortured wash that yarn could ever endure. Now you assume that you can throw that felted item into the hot wash cycle along with your sheets. Do not do it! Treat your newly felted item with caution and care in order to avoid further shrinkage or distortion.
- Felted handmade items can always be improved with brushing.
- Even a slight pressing will give a smoother appearance to felted fabric. Always press lightly using a steam iron and a damp cloth. Never press down on the fabric but hold the iron just above the fabric.

### Important to know before felting:

- It is important to record all the measurements and changes before and after felting. You will be able to either adjust or repeat the method to produce reliable and consistent results.
- Always test a sample. Different colored yarns may felt differently. Some colors have to undergo the felting more than once in order to achieve the desired result.
- As yarn will be going into very hot water, color-fastness can be affected. Again, testing a sample will give you an indication of how the color will be affected in very hot water.
- Any knitting that has been properly felted will have a distinct texture. The knitted or crocheted piece becomes very dense and matted. This will be one of the key criteria for determining that felting has occurred.

## BASED ON OUR CALCULATIONS

### Knit Swatch

After felting, the sample is approx 85% of the width and 75% of the length of the knitted sample before felting.

### Crochet Swatch

After felting, the sample is approx 80% of the width and 95% of the length of the crocheted sample before felting.

Knit Swatch Before Felting  
(19 sts and 25 rows)

Crochet Swatch Before Felting  
(15 sc and 17 rows)

Knit Swatch After Felting

Crochet Swatch After Felting
