CONTINENTS

Square (make 1 each using D, E and F)

With I-9 hook, make a 10" long ch.

Row 1: Sc in 2nd ch from hook, sc in each ch across, turn.

Row 2: Ch 1, sc in each sc across, turn.

Rep row 2 until square measures 10" deep. Fasten off.

FELTING

Place 10" squares in mesh sweater bag or pillowcase and close. Using hottest possible water and approximately 2 tablespoons liquid hand soap, fill washer $\frac{1}{3}$ full. Place squares in washer with an old pair of jeans (for agitation). Agitate for 6 minutes. Check the felting progress every minute after 6 minutes; depending on your washer, it will take 6-8 minutes of agitation to felt the desired amount. When you're pleased with the amount of felting, and felted gauge is achieved, remove the squares and drain wash water from machine; gently squeeze water from squares. Fill washer to the same water level with cold water. Place squares into washer and rinse/agitate for another minute – the cold water will make the squares felt just a bit more. Set machine to drain, then run spin cycle for approximately 30 seconds (creases caused by over spinning are difficult to remove from the finished piece). Remove squares, gently stretching into shape, if needed. Drying process may take up to 2 days, depending on humidity in the air.

FINISHING

Trace pattern pieces and cut out. Using pattern pieces, cut out North America and Asia from **D** square; cut Africa and Australia from **E** square; and cut Europe and South America from **F**. With hot glue, glue continents to globe in proper position. Cut a 28" length of fishing line. Thread fishing line onto yarn needle, insert needle $\frac{1}{2}$ " from center top of globe cover, exit 1" away on opposite side of center. Draw fishing line through and bring ends together. Using yarn needle, draw 2 ends of fishing line through bird, from center bottom to center top of body. With fishing line measuring approximately 9" from bird to globe, tie ends of line in several overhand knots at top of bird to secure. Cut four 22" lengths of fishing line. Tie one length of fishing line to each side of ring, equally spaces around. With yarn needle, draw 4 lengths of fishing line through bird, from center bottom to center top of body. Adjust lengths of fishing line to place ring, slightly tilted, around center of globe. Tie 4 ends of fishing line in an overhand knot at top of bird to secure. With all 6 strands of fishing line at top of bird, tie in an overhand knot approximately 2" from top of bird to make hanging loop. Cut off excess fishing line.
