Before start, separate the different color sections of the yarn as follows: Push the rings of color out from center. Find the point where the color changes and Break the yarn. Rep this process for the rem yarn colors. Wind each color into a separate ball.

## FINISHING

### Make Cardboard Insert (optional)

Place bottom section flat on piece of heavy cardboard and trace around it, adding approx 1/8" [3 mm] in diameter. Break out circle and check for fit by holding the circle tog with top and bottom sections. Cardboard can be trimmed for better fit as needed.

### Assemble Saucer

With RS facing, hold top and bottom sections tog. With D, *working in back loop* of top layer and front loop of bottom layer, whipstitch edges of sections tog approx half way around. Insert optional cardboard and stuff bottom and top of saucer, keeping the cardboard at the center to separate the top and bottom stuffing. Cont to whipstitch edges of sections tog, stuffing as you go.

**Nose:** Break orange toothpick in half (plain toothpick can be colored with orange permanent marker). Dip the broken end of toothpick in strong craft glue and insert between sts of head, centered approx 1 row below eyes.

**Earmuffs:** Break 2" [5 cm] length of chenille stem. Bend stem to fit over snowman's head. With strong craft glue, glue a pompom to each end of chenille stem. Allow glue to dry for several hours or overnight. **Hint:** Protect work surface from glue with a piece of waxed paper. When glue is dry, place earmuffs on snowman's head and glue the pompoms in place.

**Saucer Lights:** With craft glue, glue rhinestones, sequins or beads evenly spaced around D-colored edge of flying saucer.

Tie scarf around snowman's neck.

If desired, attach thread or fishing line to top of snowman for hanging loop.
