rubber O-ring.

GAUGE: Gauge is not important for this project.

HOLDER

Leave at least a 12" tail at the beginning.

Work until piece measures 36-40".

Bind off per how to instructions, leaving at least a 12" tail.

Thread yarn needle with tail, pass needle through O-ring
and through the center of the knit tube at least 3 times.

Wrap yarn tail around the stitches between the O-ring and
the yarn tube (similar to wrapping a button shank).

Tie a knot about ¼ inch from the secured end of the tail.
Run the needle into the tube for an inch and back out after
an inch or so.

Pull the knot inside the yarn tube and trim the yarn where it
emerges, close to the tube.

Repeat with the other tail.
