Bargello Knit Scarf

Using Unforgettable® yarn with rich shadings makes it possible to create a Bargello effect of many colors—even though it is really all one yarn color. All three lacy columns of this lace pattern scarf are knit at the same time. Be sure to read the notes for hints on doing knit Bargello!

Scarf measures about 10 x 80" [25.5 x 203 cm].

Notes

1. Scarf is worked back and forth in rows of Lace pattern, changing color to make 3 intarsia columns.
2. When changing yarn, always pick up the new yarn from under the yarn being dropped to link the yarns and prevent holes.
3. Before beginning, examine the starting colors of each ball of yarn. Make sure that each ball starts on a different color. Winding off a few yards may be needed to ensure that the starting colors are all different.
4. To minimize tangling place each ball into its own zip-closure plastic baggie with the end of yarn hanging out and the baggie zipped almost all the way closed. With permanent marker, label each baggie with one of **A**, **B**, and **C**.

Place all the bagged yarns into the larger zip-closure baggie. Placing the yarns in the larger baggie ensures that for the duration of the project it will not be necessary to reposition the yarn balls as you work. The yarns will link with each other while working a

right side row then unlink themselves after completing the following wrong side row. If you notice that this is not happening and the yarns are tangled, check your work to see if a single yarn was used across more than one intarsia column. If this is the case, undo your work to the point where this occurred.

Continue to work each intarsia section with its own yarn and link yarns to prevent holes, as you work all remaining rows of scarf.
