Souffle Wrap

Light and a little bit fluffy, this luscious wrap works well around your shoulders as a shawl, or around your neck as a large scarf. It's an easy-to-knit pattern that would be nice in any color you choose.

Shawl measurements: 63" long x 19" [160 cm x 48 cm] wide (lace section); 80" [203 cm] long (ruffle section). One size fits most women.

To make a larger size shawl, add more Lace Pattern rows.

Special Stitches

K2tog = Knit 2 stitches together. Insert the right needle into two stitches at the same time and knit. This will result in a decrease of one stitch. This decrease will slant to the right.
SSK = Slip next 2 stitches, one at a time as if to knit, to right needle, insert point of left needle through front of sts, knit these sts together through back loop.

YO = Yarn over. Make a new stitch by wrapping the yarn over the right-hand needle.

Sl 1 kwise = Slip 1 knitwise. Insert the right needle into the next stitch on the left needle as if you were knitting the stitch. Pull this stitch off the left needle. The stitch is now on the right needle and twisted.

NOTES

1. Shawl is worked back and forth in rows. Circular needle is used to accommodate large number of stitches. Do not join.
2. Use 2 different balls or the two ends from one ball to cast on using long tail method. Make a double slip knot to start - this will NOT count as two stitches, it will be removed when you knit the first row. At the end of the first row, pull the slip knot off the needle and undo it.
3. When you have cast on all stitches, cut one of the tails, leaving one which will become the working yarn.
4. Place stitch markers every 50 stitches. This makes it easier to count your stitches as you cast on.

5. Place a stitch marker to indicate the right side of your work as you will have tails at both ends.
