Grafting

Thread yarn needle with yarn. Keeping the yarn needle and yarn under the points of the knitting needles, and holding the 2 needles together with yarn at the right of the back needle, work as follows:

1. Insert the yarn needle as if to purl in the first stitch of the front needle. Pull the yarn through, leaving the stitch on the needle.
2. Insert the yarn needle as if to knit into the first stitch of the back needle. Pull the yarn through, leaving the stitch on the needle.
3. Insert the yarn needle as if to knit in the first stitch of the front needle (the same stitch as before) and slide this stitch off the needle. Insert the yarn needle into the next stitch on the front needle as if to purl, but leave the stitch on the needle.
4. Insert the yarn needle as if to purl in the next stitch on the back needle, and slide this stitch off the needle. Insert the yarn needle in next stitch on back needle as if to knit. Pull the yarn through, but leave this stitch on the needle. Repeat steps 3 and 4 until all stitches are grafted. Take care to draw yarn up so that gauge of grafting equals gauge of knitting. Fasten off. Weave in ends on wrong side.
