Emily & Edward Knit Elephants

Emily and Edward are best friends and love traveling together. They're always on the lookout for new and exiting things to try.

Elephant measures about 4" [10 cm] tall, measured in seated position.

Special Stitches

kfb (Knit into front and back) = Knit next stitch but do not remove from needle, knit into back loop of same stitch and remove from needle – 1 st increased.

ssk (slip, slip, knit) = Slip next 2 stitches, one at a time, as if to knit to right needle, insert point of left needle through front of stitches, knit these sts together through back loop – 1 st decreased.

Notes

- Before beginning, separate the different color sections of the yarn as follows: Pop the center color out by pushing gently on the center of the ball so that it comes out intact. Find the point where the color changes and cut the yarn. Repeat this process for the remaining yarn colors by carefully pushing the rings of color out of the larger ring and cutting. Wind each color into a separate ball to prevent tangling. You may find that one color appears both in the center, and on the outside of the ball, wind together or separately. In the pattern instructions, the light grey or dark grey color is referred to as **A**, the white as **B**, and the pink as **C**.
- Elephant is made from 10 pieces: Head, body, 2 ears (2 parts each), 2 arms, 2 legs, a tail, and a hat (2 parts).
- Yarn color is changed when working Elephant's shirt. Carry color not in use along the inside of the piece until next needed.
- Most of the pieces are worked in rounds. Ears, arms, tail, and hat brim are worked back and forth in rows using only two of the double pointed needles.

- Pieces are sewn together using yarn scraps, yarn tails or sewing thread.
- Take care to attach safety eyes before head opening becomes too small. Do not use safety eyes if toy is intended for a child 2 years of age or younger.

Make Opening for Trunk

Notes: A trunk opening is created by working 5 sts onto scrap yarn, then knitting them again with the working yarn. Later the scrap yarn is removed to form the trunk opening and the released stitches are placed on needles to begin the trunk. This technique is often used in sock knitting and is known as the “afterthought heel” technique. Drop but do not cut the working yarn. Cut a length of scrap yarn of same weight but different color as working yarn.

Round 28: With the scrap yarn, k5; slip the 5 sts just made back onto left needle, with working yarn, knit the same 5 sts then knit the remaining sts around.

Round 29: Knit.

Round 30: [K3, k2tog] 6 times—24 sts.

Round 31: [K2, k2tog] 6 times—18 sts.

Round 32: [K1, k2tog] 6 times—12 sts.

Note: Now you will pause working the head so that the trunk can be made while it is easier to access the trunk from the inside of head, rather than having to stuff the trunk through the tiny opening at the tip of the trunk. The head will be completed after the trunk is made.

Place remaining 12 stitches onto stitch holders or a length of scrap yarn. Cut working yarn, leaving about 1yd/1m tail for completing head.
