Notes

1. Styrofoam® wreath is wrapped in yarn. Sweaters and hats are worked separately and glued to the wrapped wreath.
2. Body of each pullover is worked back and forth in rows. Work with double-pointed needles as if working with straight needles, taking care that stitches do not slip off the "ends" of the needles. Use plain straight needles if preferred.
3. Body of each pullover is worked in one piece beginning at lower front edge. When piece reaches shoulders, an opening is made for neck then work continues down to lower back edge.
4. Stitches for sleeves are picked up across side edges of body and worked back and forth in rows. Side and sleeve seams are then sewn.

Continued...

- Stitches for collar on most sweaters are picked up around neck edge and worked in rounds on double-pointed needles. Collar on Striped Pullover is worked back and forth in rows.
- Each hat is worked in rounds on double-pointed needles. If desired, hat can be worked back and forth in rows and then back seam sewn.
- Color patterns for Christmas Tree Pullover and Snowflake Pullover can be worked by following written instructions or reading the chart. Read right side rows of chart from right to left and wrong side rows from left to right.

WREATH

With **A**, tie a knot around the wreath where the Styrofoam® joins, to prevent a bump. Wrap the yarn around the wreath, making sure there are no gaps, creating a solid covering. Every few wraps tighten and twist the yarn on the wreath with your hand. Continue in this manner until the entire wreath is covered. Tuck the end under the wrapped yarn and glue in place.
