circumference

### NOTES

The finished measurement of the scarf will  
vary depending on the tension of each chain.

You can adjust the chains by using two or  
three fingers as a guide. The chains can be  
the same size throughout or the size of the  
chain may vary for a unique look.

The scarf can be left long allowing it to be  
worn as desired or wrap ends around an  
assembled scarf and tie off as described  
below.

### SCARF

Start with a slip knot leaving a 5" (13 cm) tail.  
Using two or three fingers (depending on size  
desired) pull through the loop making your  
first chain. Continue to pull through each  
chain loop until reach 5" from the end. Tie off to  
secure.

### FINISHING

Option 1: Tie ends of scarf together to form a  
long circle allowing for versatility each time it  
is worn.  
Option 2: Assemble the scarf to desired shape.  
Using the two ends, tie a knot around the scarf  
in what will be the back neck area. Wrap the  
remaining yarn around the first knot a few  
more times and tie off. Weave in the ends  
under the wraps.
