SHOP KIT

Notes

1. Attach bracelet to fabric pillow, pin board or other soft fixed point with a safety pin, OR clip to clipboard OR use tape to attach it to a table.
2. Chevron pattern is created by tying outer knotting cords across inner knot-bearing cords to center. When colors meet in the middle, old knotting cord becomes knot-bearing cord and edge cords in new color become knotting cords.

BRACELET

Prepare cords

Cut one 72" [183 cm] length in each color. Holding ends together, fold cords in half; tie a $\frac{3}{4}$ " [2 cm] long slip knot at the halfway point. Secure slip knot to fixed point. Arrange single strands of cord in following order: **A, B, C, D, E, F, F, E, D, C, B, A**

Knot cords

*Beginning at left edge with **A**, tie Left Over Double Half Hitch over each cord **B, C, D, E, F**. Beginning at right edge with **A**, tie Right Over Double Half Hitch over each cord **B, C, D, E, F**. **Cords should now be in order: B, C, D, E, F, A, A, F, E, D, C, B.**

Beginning at left edge with **B**, tie Left Over Double Half Hitch over each cord **C, D, E, F, A**. Beginning at right edge with **B**, tie Right Over Double Half Hitch over each cord **C, D, E, F, A**. **Cords should now be in order: C, D, E, F, A, B, B, A, F, E, D, C.**

Beginning at left edge with **C**, tie Left Over Double Half Hitch over each cord **D, E, F, A, B**. Beginning at right edge with **C**, tie Right Over Double Half Hitch over each cord **D, E, F, A, B**. **Cords should now be in order: D, E, F, A, B, C, C, B, A, F, E, D.**

Continue as above until back to original cord order—1 pattern repeat complete. Repeat from * until bracelet measures 5½" [14 cm] from loop or to desired length. Tie overhand knot to secure.

FINISHING

Divide cords into 2 equal groups. Braid each group and tie overhand knot to secure. Trim ends to same length.

Insert 1 braid through loop of slip knot; tie braid ends together to secure.

ABBREVIATIONS

A, B, C, D, E, F = Color A, B, C, D, E, F; **[]** = work directions in brackets the number of times specified; ***** = repeat whatever follows the * as indicated.
