Materials: Hot glue gun, 18" x 11" storage bin, sewing needle and thread.

NOTES: When cut, Doodle™ tends to ravel. To prevent excessive shedding, use sewing needle and thread to make a couple small stitches and knot to secure the cut end.

Please use adult supervision while operating a hot glue gun.

STORAGE BIN

Row 2: Measure around the bin directly under Row 1; cut that amount of yarn **A**. With the glue gun apply glue and yarn directly under Row 1.

Row 3: Measure around the bin between the two rows of **A**; cut that amount of yarn **C**. With the glue gun apply glue and yarn in between Rows 1 and 2.

Knots

Cut two 10" strands each of **A**, **B** and **C**. Tie three knots in the center of each strand making second and third knots directly on top of first knot. Cut off ends. Referring to photo, position each of the six knots on side of the bin with any ends tucked under; glue in place.
