Intro

Hi I'm Sarah Kay, from The Shetland Islands. I am an artist creating original work using eco resin. I offer collections of wall art, buttons and jewellery to choose from, each piece made by me. All of my creations have been arranged into collections of Beach, Garden and Aurora.

Beaches

I have grown up in The Shetland Islands and have lived nowhere else. I spent my childhood on the beaches, which has become a rich source of inspiration with finds and ideas for my creations. I love to snorkel, taking underwater photographs and always cleaning the beach of plastics as I go! My work celebrates natural beauty with a touch of artistry.

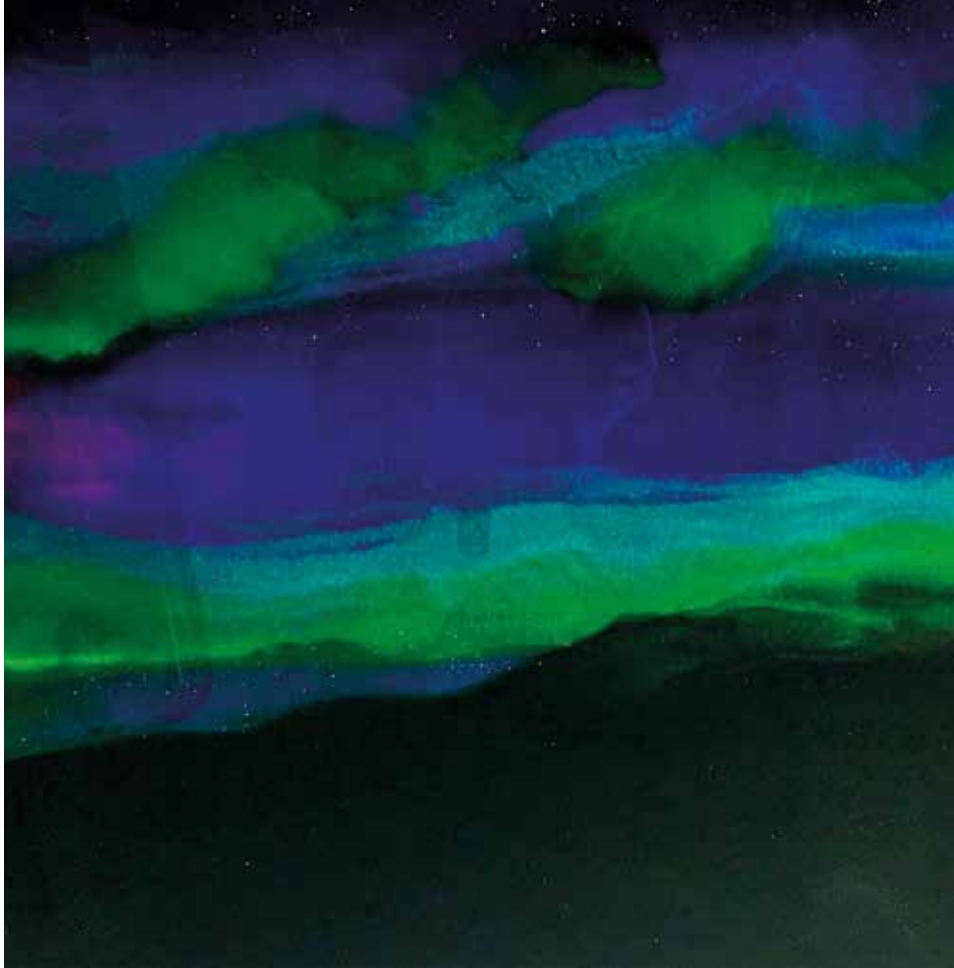

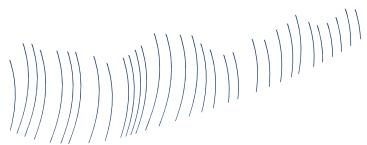

Garden

As a keen gardener, I also grow, collect and use flowers and grasses in my art pieces, many are wild varieties which have just appeared, others are plants I have collected and grown over the years, many with special meaning. My garden is also open to visitors for charity as part of the Shetlands Garden scheme, located at Scalloway, Shetland ZE1 0UR.

Aurora

We have long dark winters which give an opportunity to enjoy the Aurora Borealis or Mirrie Dancers as we call them in Shetland. When the garden is asleep, I enjoy working in darker colours and adding sparkle inspired by the night sky. The green colour pigment throughout the Aurora collection glows in the dark!
