Introducing AeroSilver® Technology

AeroSilver® based fabric is the next generation of 100% Polyester yarn. It is the most innovative technology in healthcare fibre construction.

What is AeroSilver®?

A unique anti-microbial and quick drying yarn that contains elements that can move moisture away from your body to the outer layer of fabric. As a result the fabric not only inhibits germs but feels really soft and fresh all day long!

How does it do that?

The presence of antimicrobial agents within the yarn and components of silver (Ag) kills harmful germs while absorbing and quickly drying perspiration. As a result AeroSilver® effectively eliminates odour.

Benefits of AeroSilver®

- ✓ Breathable
- ✓ Quick Absorption & Drying
- ✓ Anti-Bacterial Protection
- ✓ UV Protection
- ✓ Little to No Ironing Required
- ✓ Extra Durable

Ezylin[®]. The industry favourite.

A range of styles to suit the variety of roles within the Healthcare industry.

Ezylin® 100% Quality.

Ezylin® has a special finish that quickly moves moisture away from the skin to the fabric surface, keeping you cool, dry and comfortable.

With consideration to the physical nature of your role, the Ezylin® range offers styles and fits that create comfortable and easy to wear garments.

Ezylin® is a soft yet durable fabric that is machine washable for everyday wear. It features an easy care finish with minimal or no ironing required.

Combine the thoughtful features with the attention to detail and you'll understand why City Collection is *the right fit*.

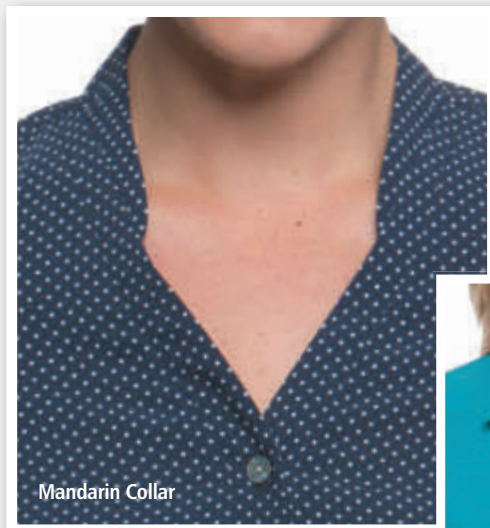

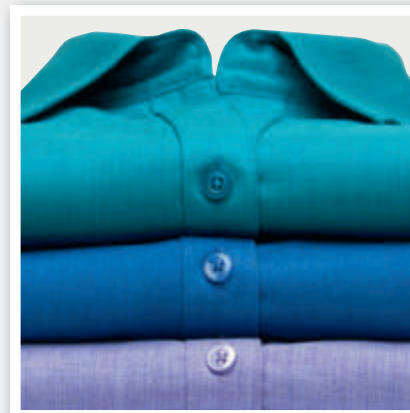

Double Pocket Feature

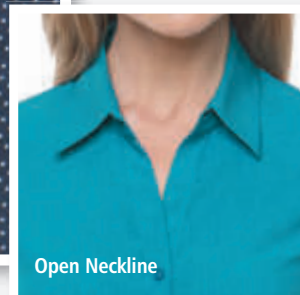

Pockets are a frequent request in this sector so we have released 4 new styles each with a convenient double pocket front feature.

Easy Care Non-Iron Fabrics

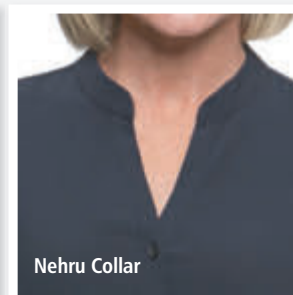

Garments are easy to wear and care for. Machine washable and quick drying for everyday wear with minimal to no ironing required. Perfect for time-poor individuals.
