# APPENDIX.

# WOMEN'S SIZES.

NNT have created a simple to use size chart to help you order the right size. To get an accurate body measurement use a tape measure, keeping the tape taut but not stretched and follow the instructions below. Ask a friend to help for accurate measurements. For consistency ensure all measurements are taken from the same side of the body.

### A. BUST

Measure around fullest part of the bust, keeping the tape level and straight. Keep one finger between tape and body.

### B. WAIST

Measure around your waist, keeping the tape level and straight. Keep one finger between tape and body.

### C. HIPS

Stand naturally, measure around fullest part of hips (approx. 22cm down from waist), ensure tape is level and straight. Keep one finger between tape and body.

# MEN'S SIZES.

NNT have created a simple to use size chart to help you order the right size. To get an accurate body measurement use a tape measure, keeping the tape taut but not stretched and follow the instructions below. Ask a friend to help for accurate measurements. For consistency ensure all measurements are taken from the same side of the body.

### A. NECK

Remember, make allowance for comfort. Ask a friend to measure around your neck at collar level. This measurement is your shirt size.

### B. CHEST

Measure around fullest part of the chest, keeping the tape level and straight. Keep one finger between tape and body.

### C. WAIST

Measure around waist, keeping one finger between tape and body. Over your shirt (not trousers) at the position you would normally wear your trousers.
