

Williamson

Supply Company, Inc.

OVER HALF A CENTURY Serving the Window Covering Professional
Est. 1968 • October 2023 Catalog

About Williamson Supply

Williamson Supply was founded in 1968 by William Williamson. He started the company with just a small amount of hardware, workroom supplies, and lining. He approached it as he did everything in life: with dedication, loyalty, and a desire to excel. Throughout the years we have grown and added products, slowly building a reputation of excellence. What began as one man's dream has now become an integral part of the window covering industry, and we still follow the example set by Mr. Williamson.

Fifty years later, we carry a vast range of drapery hardware, fabric, lining, and workroom supplies. Our personnel in Houston and Dallas take pride in following orders from beginning to end to ensure they are met with a professional approach and a personal touch. We couldn't have come this far without our terrific customers throughout the years, and we're looking forward to the next fifty.

Sincerely,

Chris Williamson and Rick Williamson

*Mr. Williamson,
our founder.*

Ordering and Contact Info

When you're ready to place an order, or if you just have a few questions about what to order, we encourage you to give us a call or email so that we can work with you one-on-one. Many orders require an initial quote, and we are happy to provide those for you as well. We also list product information and pricing, vendor catalogs, and price lists on our website at williamsonsupply.com.

Our Selection of Hardware

The following pages preview the hardware lines that we carry. Whether you're searching for a motorized rod, a traditional rod with rings, or a track that recesses into the ceiling, we have options for every scenario. What's important to us at Williamson Supply is that we help you through the process of selecting and ordering hardware; simply put, we speak drapery! We will assist with your order every step of the way, making sure it is specified and ordered correctly so that you can have a successful and professional drapery installation.

Each of the following hardware lines has its own catalog and price list, all of which you can access at williamsonsupply.com. You are also welcome to request physical catalogs, and we have an array of sample materials and color chips available too. Much of this hardware is in-stock at our Houston and Dallas warehouses, and much of it is special order or custom-made.

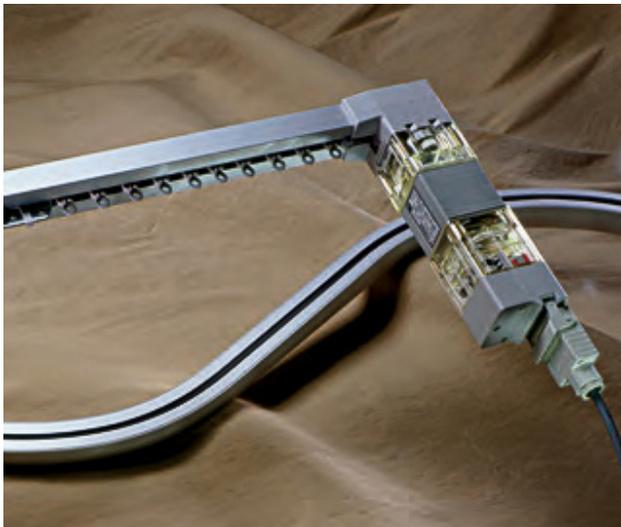

We are happy to answer any questions you may have, whether you're a beginner or a seasoned pro. Most of all, thank you for being a Williamson Supply customer.

BTX

- Gorgeous custom drapery hardware
- Quick-ship options available
- Custom traverse and motorized options
- Sample binder and catalog available

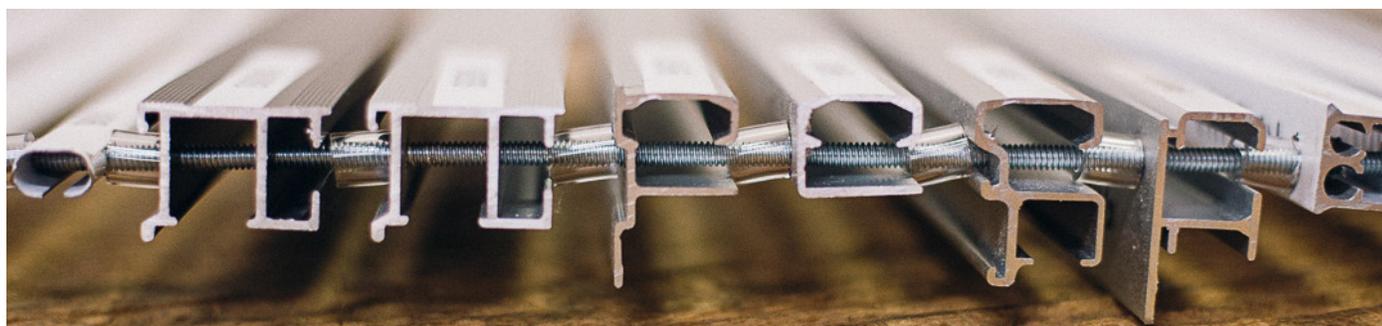

Custom Track Systems

We help our customers streamline their drapery jobs by making custom basic traverse rods at our Houston and Dallas warehouses. We find out exactly what you need for your job, and using Kirsch, Graber, or Forest hardware, we will make a rod to your exact specifications. Here are some options to consider when ordering your rod:

- Heavy duty track uses high-quality ball bearing carriers and can carry a significant amount of weight. These can be mounted so that they are visible in the room, adding a modern and sleek component to the design, and most track is available in white, black, silver and bronze. Decorative fascia is also available. If the track needs to be hidden, it can be mounted behind a valance or in a recessed cove.
- We can bend and curve track to a template.
- Most traverse rods use a Pinch Pleat drapery design, which is a traditional drapery heading style using pin-on hooks. Another more modern option is Ripplefold or Rollpleat, which creates a soft folded look. We will help you specify whichever style is appropriate for your job.

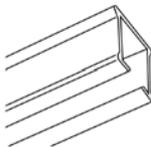

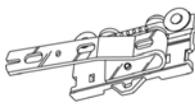

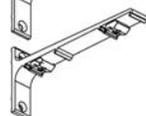

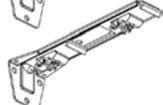

To order, simply give us a call or email with details about the type of rod you need. If you have more questions than details, we are happy to answer them, and once we have enough information we will work up a quote for you. Our typical lead time is 10 business days. We offer a 15% rush for 5 business days, and a 25% rush for 3 business days.

CONTRACT SYSTEM - CS

Hand draw track system designed for hotel and heavy-duty use. Aluminum extrusion, powder coated and lubricated for wall or ceiling mount. Components shown below are in stock. **We assemble custom curved and straight sets.**

Motorized Window Treatments *~*

With recent innovations in home automation systems, motorized window treatments have grown tremendously in popularity and function. We are thoroughly knowledgeable with the available motorization options and how they work, so we can help you specify what you need for your job. Here are a few starting points for selecting a motorized system:

- If you're looking for a non-decorative drapery track, we can help you select a BTX motorized system. These can be bent for curved or bay windows and are available in several colors for a clean, modern look. Both plug-in and battery options are available.
- Motorized Roman Shades are very popular. We can help you select anything from lightweight, long lasting battery-operated options to heavy duty plug-in systems, all made to your exact specifications.
- Decorative motorized drapery systems combine automation and the decorative element. If you're looking for a traditional wood system, Paris Texas Hardware or The Finial Company are excellent choices. If you'd like a more contemporary or modern look, motorized systems with metal fascia from Orion are a great option. The Orion tracks can be bent or curved for bay windows. Both plug-in and battery options are available.

Technology and trends move fast, and that's why we're here to help you find the perfect solution.

Williamson Supply Fabric ~

Beautiful fabric is the heart of any drapery treatment, and we stock a wide range for both drapery and upholstery applications. An easy way to keep up with what's available is to join our sample book program. For a low one-time fee, you'll receive our current sample books and any new ones that we stock. You may also browse our fabric selection at williamsonsupply.com, where you can view available colorways as well as fabric content, FR ratings, application details, and a current price list.

SAFETY RING LOCK SYSTEM

- Eliminates the lift cord's ability to form dangerous loops
- Designed to replace shrouded cords and ladder tape/cords while saving time and money on labor and material costs
- Transparent components are made of a unique proprietary blend of certified pure material guaranteed never to chip, crack, yellow, or break
- Level Locks are guaranteed to hold 10lbs per cord column
- Creates perfectly flat waterfall folds with every lift

3 Pieces, 2 Uses, 1 System

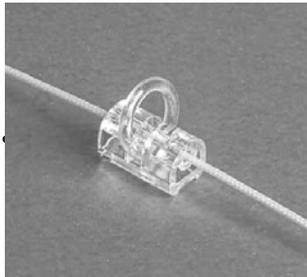

RL - Ring Lock

FR - Forever Ring

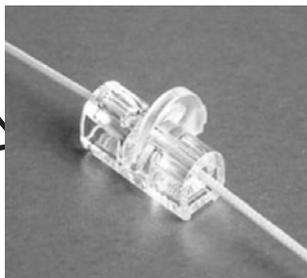

LI - Level Lock Insert

Ring Lock Set

- Ring Locks keep cords from forming dangerous loops
- For each row of each column
- 1 RL and 1 FR

Level Lock Set

- Level Locks keep shade level and uniform
- For the bottom row of each column
- 1 RL and 1 LI

Ring Lock components are sold in bags; see below for quantities and pricing.

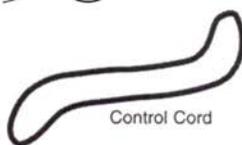

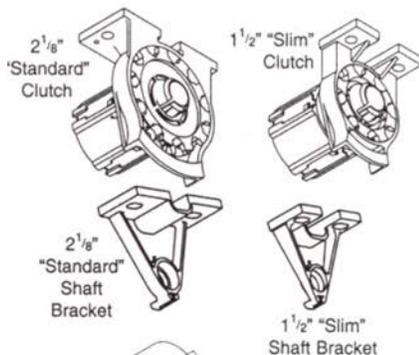

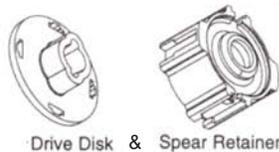

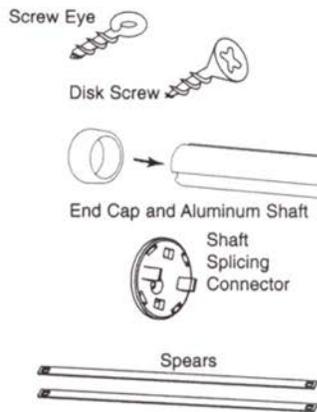

Item	Description	Bag Qty.	Bag Price

		1000/Bag	24.00/Bg
STSLIIP	Level Lock Insert	50/Bag	9.00/Bg
		100/Bag	16.00/Bg

The Ring Lock System creates perfect shade folds

Soft Shade Systems

Roman Shades are a popular drapery option, and we can help you choose your shade components and understand how to assemble them. We offer both the Rollease and RBS shade systems. Rollease is a mechanical roman shade system that uses a continuous chain, and it can be easily lifted, lowered, and stopped in any position. The RBS system offers a very simple assembly, sleek design, and doesn't show any visible components once assembled. We also offer excellent shade motorization systems.

RollEase
Engineered to be Essential

Rollease shade components and their functions:

SCREW EYES: used as lift cord guides for edge lifts.

TWO DISK SCREWS are used to secure the drive disk to the shaft.

SHAFT: smooth 3/8" aluminum with 3 grooves along the length.

END CAP: used to cover the exposed end of the shaft.

SHAFT SPLICING CONNECTOR: use two connectors per splice.

SPEARS: transmit clutch torque to the shaft via the drive disk. Notice the symmetrical shape with holes at both ends of the spears.

DRIVE DISK & SPEAR RETAINER: The drive disk fastens to the shaft with two drive disk screws and is guided by the spears. The spear retainer is used to hold and protect the ends of the spears.

CLUTCH: the mechanism that raises and lowers the shade by means of a control cord or bead chain.

SHAFT BRACKETS: support the shaft and guide the lift cord to uniformly wind onto the shaft.

CORD CLIPS: designed to clip onto the shaft and used to hold the knotted end of the .9mm **LIFT CORD**.

ORBS: When used in conjunction with the bottom rings on your shade, the orb will allow you to easily adjust and equalize tension on all lift cords.

CONTROL CORD: threaded into the clutch and used to raise and lower the shade. It may be polyester or a metal bead chain (chain is required for shades over 10 pounds.)

WARNING

Cords and bead chains can loop around a child's neck and STRANGLE.
 • Always keep cords and bead chains out of children's reach.
 • Move furniture away from cords and bead chains. Children can climb furniture to get to cords.

SAFLAB-1 04/2013

ANSI/WCMA 5.1.1

ADVERTENCIA

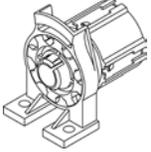

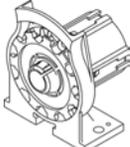

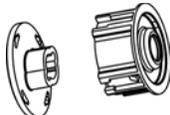

Las cuerdas y cadenas pueden envolverse alrededor del cuello de un niño y ESTRANGULARLO.
 • Mantenga siempre las cadenas y cuerdas fuera del alcance de los niños.
 • Mueva los muebles lejos de las cuerdas y cadenas. Los niños pueden subirse a los muebles para llegar a las cuerdas.

TERMS & CONDITIONS OF SALE

PRICING

All prices are subject to change without notice. Orders will be invoiced at prices in effect on date order is accepted. Prices do not include any federal, state, or local taxes. Written quotations expire 30 days from the date of the quotation, unless otherwise specified. Orders over \$1,000.00 may require a 50% deposit. A handling charge of \$3.00 will be applied to orders totaling less than \$10.00.

ERRORS

Typographical, clerical errors or omissions in quotations are subject to correction. Williamson Supply is not responsible for reinstallation fees and trip charges. Please ensure your order is correct and operational before your installation.

CREDIT TERMS

All initial orders from new accounts are either to be paid in advance or C.O.D. After credit has been approved by our Credit Department, terms are Net 30 Days or Net 10 EOM. All orders are subject to approval from our Credit Department. All accounts which are either past due or over their credit limit will be put on credit hold by the Credit Department. The Credit Department will not be able to release your order until your account is current. Credit cards (American Express, Mastercard, and Visa) are accepted.

- Net 30 Days - All invoices are due by the 10th of the following month, payable in Houston, TX.
- Net 10 EOM - All invoices are due 10 days from the invoice date, payable in Houston, TX.
- Accounts without terms will be payable upon delivery or paid in advance. Payment for C.O.D. orders is according to the terms of delivery the freight company used.

In the event of an account being placed for collection, all costs and expenses are to be paid by the customer, including attorney fees, if applicable. A \$10.00 fee will be imposed on all returned checks, \$20.00 for a second return.

SPECIAL/CUSTOM ORDERS

All special or custom orders require a signed confirmation and a 50% deposit regardless of account terms.

FREIGHT

Most orders placed by 12:00 p.m. CST will ship same day. A handling charge of \$3.00 will be added to each shipment. C.O.D. fees, if any, will be added to the invoice. Most orders will ship via FedEx. Orders that cannot ship FedEx due to size or weight will ship via the most cost effective common carrier. Residential delivery charges will be applied as charged by the transportation company. Orders in excess of \$400.00 will be shipped either pre-paid or an allowance will be given on the invoice, but not to exceed 5% of the invoice total (before shipping charges). A \$20.00 charge will be applied for delivery by our truck in Houston or Dallas. Delivery is not available in all areas.

FREIGHT DAMAGES / SHORTAGES

Please inspect all shipments upon receipt for freight damage. If a shipment was received damaged, please notate it on the Bill of Lading. Buyer will be responsible for damaged freight not properly notated. All concealed damage must be reported to the freight company within 24 hours. If Buyer receives defective merchandise (not freight damage) or incurs shortages, please contact Customer Service within 48 hours.

RETURNS

No returns will be accepted unless a return authorization number has been requested and received from Williamson Supply Co., Inc. Returns of stock merchandise are to be made within 30 days of purchase, as long as the merchandise is in its original, un-opened packaging and is current stock. Under no circumstance shall the Buyer deduct the value of the returned merchandise from any remittance due. Returns which are not due to company error are subject to a 15% restocking fee. No returns will be accepted for custom or special order merchandise, or fabric less than 6 yards.

BACK ORDERS

Williamson Supply Co. will notify Buyer of back ordered items, but we reserve the right to ship partial shipments and place remaining items on back order unless a request is made to cancel the back order.

CANCELLATIONS / CHANGES

Please proof all orders before submitting. Cancellations or changes to custom or special order merchandise cannot be made after 24 hours.
