

CHART INFO

- *1 Allow a minute for complete absorption.
- *2 Can also be sprayed into shoes, as necessary.
- *3 Room temp.
- *4 3x daily, can be used more often as needed.
- *5 Lay on back, head downward, nostrils toward ceiling. Place 5-7 drops into **one** nostril, hold position for about 1 minute, blow your nose and repeat on other side. At first you may experience a stinging sensation which will subside with continued use. Repeat every 30 minutes for best results. For seasonal allergies use as needed for relief.
- *6 Keep 2 tsp. of Colloidal Silver in your mouth for 5 minutes, then swallow. Do this 5x daily for 2 days. Take Miracle Clay for maintenance.
- *7 Soak gauze in Colloidal Silver, clean infant's mouth. Repeat after every feeding until gone. Additionally mother should apply Nature's Miracle Clay Cream after each feeding. Minimizing white flour and sugar, is strongly suggested. Note: A Nipple shield eases the pain and can be purchased at a pharmacy.

INGREDIENTS: Colloidal Silver 100PPM. and Distilled water | Available in a 4 oz. dropper and spray- 8 oz. - 16 oz.

Notice: If pregnant, nursing, taking prescription drugs or have a medical condition, consult your healthcare practitioner prior to taking this or any supplement.

CHART INFO

- *8 Great tip for strep: Wet q-tip with Colloidal Silver, rub into gum line front and back once daily for 3-4 days.
- *9 Usually due to parasites or heavy metals, therefore adding Nature's Miracle Clay is highly recommended.
- *10 Long term maintenance dosage (2-3x daily) is important. Upon onset of recurring infection, (while on Colloidal Silver and/or Immune Power) increase dosage until improved, then gradually reduce and follow the maintenance dosage.
- *11 It's important to file the shine off the infected toenail to increase porosity. Wash foot well. Saturate a CURAD non stick pad with adhesive tabs with Colloidal Silver and tape over affected nail. Covering it with a rubber finger tip, may be helpful. Both available at pharmacies. Apply twice daily for at least 20 minutes. Can be left on overnight. Allow 1-3 months to take effect.
- *12 When necessary can use every 15 minutes.
- *13 Can add or replace with Colloidal Silver 3 x daily, internally.
- *14 Cough N Cold is a great choice
- *15 UTI Care is your best choice

General Instructions:

- Use internally and externally.
- Preferably take Colloidal Silver a few minutes before or after food.
- Best taken at first sign of illness, add additional dosages the first 2 days.
- Continue taking additional 2 days after symptoms are gone. Stopping prematurely allows the remaining germs to survive and multiply... we wouldn't want that!
- Keeping Colloidal Silver in mouth, a minute or so before swallowing allows quicker absorption.
- Can double dosage or use more often for quicker results.

Congratulations on taking an important step toward better health!

Nature's Cue-Colloidal Silver is a pure, natural occurring substance. Its effective results, have been the answer to a variety of different ailments as well as an amazing preventative. Our Colloidal Silver with its unique makeup leads to wonderful and consistent results.

What makes Natures Cue-Colloidal Silver highly effective?

The key to its effectiveness and consistent results is the silver particle's miniscule size—roughly the size of a single atom! The tiny size of each molecule, as well as the special creation process makes our silver stand out. The smaller each particle, the deeper it penetrates, which leads to better absorption and effective results.

Is Higher PPM always more effective?

Absolutely not! Good quality silver is calculated by its PPM as well as its particle size. Particle size is a critical indicator of a quality silver. In fact, studies have shown high PPM silver with larger particles as being less effective.

What is the difference between clear versus colored silver?

Crystal clear silver is the highest quality available. Colloidal Silver of any color indicates larger silver particles, thus rendering those silvers less absorbable by the body, and therefore less effective.

What's the difference between Natures Cue-Immune Power and Natures Cue-Colloidal Silver?

Both products work and are effective in different, yet complementary ways. Immune Power has an added advantage of building the immune system. Colloidal Silver is the first choice when applied directly onto the affected area, as for eye, ear, sinus infections, fungus, herpes, wounds, and similar ailments. Combine both for maximum results.

Other uses for Colloidal Silver:

- Beneficial on airplanes or any germ zone.
- To kill germs, spray Colloidal Silver on counters, headphones, toilet seats, hairbrushes, fresh foods, etc.
- Soak your toothbrush in Colloidal Silver to prevent microbial contamination.
- Sanitize drinking water: Add 2 tsps. per quart water, wait ten minutes before drinking. Great when traveling.

COMMON AILMENTS & SOLUTION

Follow **stars** on CHART INFO (flip page) for detailed instructions .

While applying Colloidal Silver externally, it is beneficial to address the root cause of the problem internally and prevent future symptom recurrence as seen below.
