

## WOUND CARE WITH NATURE'S MIRACLE CLAY

**Nature's Miracle Clay Cream is available at your health food store.**

This cream has worked on most cuts, wounds, bites, rashes, acne, infections etc.

To mix your own cream follow directions below:

1 part Nature's Miracle Clay powder  
1 part Nature's Cue Colloidal Silver  
2 parts water, preferably purified  
Example: 1tbsp. Clay Powder, 1tbsp. Colloidal Silver, 2tbsp. water  
For minor wounds you can replace Colloidal Silver with water.  
Mix well. Store in an airtight container

**Let stand 12-24 hours** to reach pudding/mustard consistency. If loose, add powder; if dry, add water. Nature's Miracle Clay absorption varies from batch to batch. Always make sure to get the right consistency.

## 2 EASY STEPS FOR TOPICAL APPLICATION

**1 Place Cream Over Wound.**  
Preferred cream thickness 1/4- 1/2"  
Large pussy wounds apply 1/2 -3/4"  
Cream should overlap wound.

**2 Cover to Keep Secure and Moist.**  
Dried out cream will stop pulling infection out; keep moist and replace if dry. Moist cream's absorption capacity has a limit; therefore, even if not dry replace as recommended below.

**Choices of Wound Covering:** Glad Press 'n Seal\* Saran wrap (sticks well, sold in groceries), Fixomull\* transparent film roll, or Island Dressing\*. For smaller areas eye patch bandages are ideal.

**For Fingers-** Cut finger off disposable glove or use rubber finger tips/cots avail. at pharmacies.  
**For Hands-** Use disposable glove.

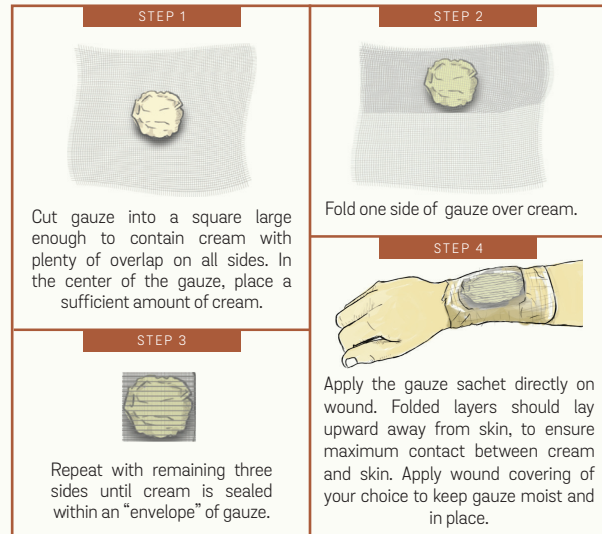

**Replace clay cream between twice daily and hourly depending on severity of wound. Leave on overnight**

**CAUTION:** MRSA infections are aggressive. Apply dressing "immediately" to avoid rapid growth!

## WOUND DRESSING WITH GAUZE

Gauze may be used to simplify cleanup and to keep ideal cream thickness of 1/2-3/4" over wound. Recommended for burns and sensitive or large wounds.

**Important:** Cream needs skin contact, to be effective.  
Use recommended gauze only! See shopping list.

Extra gauze sachets can be prepared in advance to simplify replacement. Store in a closed container.

## WOUND HEALING PROTOCOL

**External use:**  
For Instructions Follow "2 Easy Steps for Topical Application" (See left)  
Apply warm compress or soak prior to applying cream to expedite process.

**Internal use:**  
**To prevent recurring infections Cellulitis, Ulcer, MRSA, among others, follow the protocol below for at least 3 months**

- 1 Take suggested daily dose of Nature's Cue-Miracle Clay
- 2 Take suggested dosage of Nature's Cue - Immune Power 3x daily.

After 3 months 1 dose of Immune Power and the daily dose of Nature's Miracle Clay is recommended for another month, evening preferable.

At first wounds may recur before getting progressively milder and less frequent, until it can get out of your system.

## CHECKLIST FOR WOUNDS THAT DO NOT HEAL

- > Cream is too hard. If cream in jar dries up, add water and mix well.
- > Cream is not thick enough 1/2 - 3/4".
- > Replace cream more often.
- > Keep moist! Dry cream has no pulling action.
- > Gauze too tightly knit, not enough skin contact.
- > Some hard red wounds take more time to open and drain.
- > Applying a warm compress before spreading cream is recommended
- > Additionally applying a warm compress over cream is beneficial

**Works wonders, and amazingly quick when done right!**

# NATURE'S MIRACLE™

## MIRACLE CLAY

Congratulations on taking an important step toward better health!

**Nature's Miracle** is a natural-occurring substance, pure and unaltered by man. Its effective results, have been the answer to a variety of different ailments as well as an amazing preventative. While there are many different types of clays, Nature's Miracle stands alone in its unique mineral makeup, leading to wonderful and consistent results.

**It's nice to know how Nature's Miracle works!** Nature's Miracle has a 100% negative ionic value, versus bacteria, viruses, fungi, disease, radiation and toxic chemicals which all have a "positive" ionic value. Acting as a "vacuum cleaner," Nature's Miracle will suck up many times its own weight, pulling the bad matter into its own structure and sucking it out of the body through the colon. Nature's Miracle promotes rapid healing by infusing the body with a wide range of minerals such as calcium, iron, magnesium, potassium, silica etc. that help cellular rejuvenation. When applied externally, Nature's Miracle's strong pulling action sucks out the bad stuff and brings circulation to the area, to reduce pain and promote healing. Nature's Miracle also draws the sting and pain out of insect bites, burns, wounds and so on. Nature's Miracle stimulates the immune system and energizes cells resulting in a new, healthy balance.

### GET FAMILIAR WITH NATURE'S MIRACLE'S WIDE RANGE OF USES

#### PROMOTES:

Energy • Vitality • Clear Mind • Alkalinity • Joint Health  
Nature's Miracle has been used for generations with amazing results for:

- Stop bleeding
- And More!

**DOSAGE TABLE:** If desired results aren't achieved, increase dosage and/or add another dose.

Body Weight	Capsules	Powder	Prepared Solution <small>SEE BELOW</small>	Per day
100–150 lbs.	3–4	1 tsp.	2 tbsp.*	2x daily
50–100 lbs.	3	3/4 tsp.	1-1/2 tbsp.*	2x daily
20–50 lbs.	Each Capsule = 1/4 tsp	1/2 tsp.	1 tbsp.*	2x daily
15–20 lbs.		1/4 tsp.	1-1/2 tsp*	2x daily
Under 15 lbs.		1/8 tsp.	3/4 tsp.*	2x daily

For general use, daily dose may be combined into one. Over 150 lbs. adjust dosage accordingly.

Nature's Miracle Clay Powder or Prepared Solution (see below) may be mixed into yogurt, apple sauce, smoothie or any food or drink.

Nature's Miracle Clay and water does not require refrigeration.

**Mixing instructions:** Place liquid in jar, add powder, cover and shake well immediately. Let sit for 5–10 minutes or preferably overnight and re-shake.

**Shake before using but do not stir hard settled bottom, if any.**

#### Prepared Solution for multiple dosages: NOW MORE CONCENTRATED

Mix 12 oz. water with 1/4 cup Miracle Clay powder.  
Always leave shaking space in jar.  
1 oz. of the Prepared Solution above = 1 tsp. Clay powder.

\*Pre-hydrate by soaking for a few hours or overnight. Especially **Important** for **Babies**.

## IMPORTANT NOTES

> **For acne:** A clay mask is a great way to draw out the skin's impurities and excess oils. Apply a thin layer of clay cream (preferably with Colloidal Silver) to face and allow to dry for 15–20 minutes. Rinse with warm water and pat dry. For dark circles under eyes and puffiness, apply a layer of clay cream to affected area.

Follow with a quality moisturizer such as cold pressed coconut oil if skin feels dry. Can be used daily.

> **For Diarrhea/Stomach virus: Acute** – Take a dose of Nature's Miracle Clay every hour until symptoms are gone. There should be marked improvement within several hours. **Chronic** – Start with rec. dose, increase frequency of dosages until bowel is regulated.

> **For H-pylori, and other stubborn digestive, intestinal, or skin disorders:** Increase dose to 3 times daily. For digestive/intestinal disorders, preferably take Nature's Miracle Clay in powder form.

> **For detox, parasites, heavy metals and deeper cleansing as post-long term medication.** Triple the daily dosage for 21 days.

> **Therapeutic dose:** In case of food poisoning, drug overdose, or severe stomach irritation, consume 1–2 tbsp. or take 12–24 capsules. Adjust dosage for children accordingly.

> **Maintenance regimen:** Can be taken on a daily basis to support the body's immune system, absorb toxins and balance pH level. Daily dosage can be combined.

**Ingredients:** Miracle Clay (Bentonite)

Notice: If pregnant, nursing, taking prescription drugs or have a medical condition, consult your healthcare practitioner prior to taking this or any supplement.

## GENERAL INFORMATION

- Absorbs unpleasant odor. Use in refrigerator or any smelly area.
- Ensure that Nature's Miracle does not have **prolonged** contact with metal.
- Clay experts recommend taking Nature's Miracle Clay 3 hours apart from medications, or the length of time it takes for medication to absorb. You may check with your doctor to determine absorption timing. **This does not apply for external use.**
- Check with your doctor regarding use of time-released medications.
- Keep out of close proximity to chemicals and strong odors.

**Important:** Drink adequate amount of water throughout the day while using Nature's Miracle Clay. If your water intake is low, pre-hydrate clay powder by soaking the mixture for 6–8 hours before using.

If your body has an overload of toxins, slight constipation may occur during the first period of use. While Nature's Miracle Clay is cleansing your system, work through this possible short-term constipation by drinking more water, adding soaked prunes and/or taking Nature's Cue-Constipation Care to help the body quickly rid itself of the toxins. If necessary, reduce dosage until constipation clears and gradually resume with the suggested dosage.

It's called Nature's Miracle for a reason!
