Baden THERMAL BONDED CONSTRUCTION

Thermal-bonded surface repels water and mud, reducing moisture absorption for improved durability and consistency in any environment

Thermo construction enhances accuracy, touch, and ensures long-lasting shape retention for superior performance

Baden
THERMO

SIZE 5

see page 19

SYMMETRICAL DESIGN

With symmetrical panels, the Elite™ is a perfectly balanced ball. This allows for consistency in shooting, passing, catching, rebounding and ball handling. We've created panels that are more widely-spaced, ensuring you won't feel lumps or get inconsistent bounces.

CUSHION CONTROL TECHNOLOGY™

Baden's patented Cushion Control Technology™ forever changed the way basketballs are made. CCT™ consists of thousands of tiny air cells that form a "cushioned" carcass. CCT™ provides a softer feel and gives the ball a truer bounce and longer life.

ADVANCED MICROFIBER

Baden's advanced microfiber cover creates the best feeling basketball on the market. The cover material will not absorb moisture or become heavy while maintaining the perfect tack for optimum playability.

STEALTH SOFT-VALVE SYSTEM™

With our SSS™ system, we've created a valve almost undetectable by the player. This creates eight identical panels to ensure consistency, truer bounce, truer flight and truer play.

EXCLUSIVE LEATHER COVER

Our leather is handpicked to ensure the best selection for every single ball. Our innovative tanning process makes our leather softer and more durable. The cover is 33% thicker than competitors to maintain the integrity of the ball over time.

SPECIALLY FORMULATED ADHESIVE

The reformulated adhesive is used in all aspects of construction to ensure you get the best feel and response during impact. The adhesive adds durability and eliminates panels from peeling.

LIGHTWEIGHT BUTYL BLADDER

The Perfection® butyl bladder is the lightest bladder ever used for volleyball. This bladder provides optimum weight, performance and velocity.

BLENDED COTTON WRAP

The blended cotton wrap ensures shape and air retention with added strength and durability.

STEALTH SOFT-VALVE SYSTEM™

Baden has softened the entire valve panel, creating a more consistent feel to increase accuracy. The valve is almost undetectable for any player.

CROSS PANEL LAMINATION

Instead of laminating panels in the same direction, we alternated the lamination to provide exceptional playability with a soft touch. The result is a soccer ball with superior roundness, strength, durability and performance.

ADVANCED TEIJIN MICROFIBER PU

This ball will play true in the air and on the ground because of its 32 hand-sewn panels with a four-ply cross-panel laminate cover. The cover allows the player to play longer, stronger and still have a soft touch.

100% LATEX BLADDER

A latex bladder is used in all top-of-the-line game balls to ensure optimum performance. The latex bladder provides liveliness and truer play off the foot.

RAINSHIELD™ TECHNOLOGY

With RainShield Technology™, the seam sealant prevents water absorption during wet conditions.

STEALTH SOFT-VALVE SYSTEM™

The SSS™ valve system creates a consistent, 360 degree soft feel with perfect balance for ultimate accuracy.

OPTIMUM SHAPE

Baden's extensive research has created the ultimate shape for football. Technology has allowed us to dial in our patented shape for ideal hand placement. 3D scanners allow us to calculate the force once the ball leaves a player's hand. The result is a ball that practically spirals itself.

SHARKBACK™ LACE

Our SharkBack™ Lace features a series of longitudinal "fins" that anchor the QB's fingers, letting them snap down with more force and minimal slipping.

RE-ENGINEERED LEATHER

Our leather tanners have taken a giant step forward. The QB1 leather provides a more solid grip, tight spiral, and a faster spin rate in all conditions.

SMALLEST LEGAL SIZE

The smallest legal size football in the market allows the QB to throw farther, more accurately, and with greater velocity, regardless of their hand size.

TRIGGER SEAMS

By slightly raising our seams, we provide a trigger for the index finger to achieve the fastest spin rate.
