PERFECTION 3K PICKLEBALL PADDLE

This game-changing paddle features our 3K Carbon Warp face, which provides stability and pop in the hitting zone, dynamic spin control, and durability.

The Baden Elite head shape provides an enlarged sweet spot to maximize the ideal hitting surface and the light-but-balanced weight and grip help make every shot a perfect one.

Thickness: 16mm

Weight: 7.9 oz.

Handle Length: 4.5"

Handle Circumference: 4.25"

Includes protective head cover
USAPA certified

QPP30-200

MSRP: \$169.99

TECHNOLOGY

ELITE - SHAPE

Proprietary shaping and design that increases the paddles moment of inertia, elevating collision efficiency. Translation: more power behind each shot.

3K CARBON WARP - FACE

Strategically aligned, multi-directional carbon-fiber weave, increasing torsional stability throughout the paddle face, increasing accuracy, especially on hard shots.

P4X - CORE

Reduces vibrations, especially on mishits, enhancing feel and control.

PICKLEBALL

BATTLE POINT PICKLEBALL PADDLE

Consistency is the name of the game, and the graphite face with honeycomb core deliver it in spades. The face is lightly textured to provide maximum spin control, while still falling within USAPA guidelines.

Thickness: 13mm

Weight: 7.8 oz.

Handle Length: 4.5"

Handle Circumference: 4.25"

Includes protective head cover
USAPA certified

QPP20-200

MSRP: \$119.99

TECHNOLOGY

ELEMENT - SHAPE

Advanced design that maximizes the paddles sweet spot without sacrificing power or control. Perfect for the player looking to elevate their game.

TRUGRIT GRAPHITE - FACE

A harmonious blend of our TruGrit surface with graphite face material that literally grips the ball, creating dynamic spin and maximizing control.

P4X - CORE

Reduces vibrations, especially on mishits, enhancing feel and control.
