

DAMAXED

DAMAXED ELECTRIC BIKE

To be the most reputable electric bike manufacturer,
to provide a fresher experience for the users.

ABOUT DAMAXED

PAGE
02

DAMAXED is a professional manufacturer and exporter of electric bikes. We have more than 10 years of experience developing and producing electric bikes, and the 30 years historical brand Diamondback provided technical support.

Since 2013, we have focused on electric bike manufacturing. At the e-bike factory in DAMAXED, we use fully automatic European production lines, more than 74 processes, and 300 inspection points to ensure that each electric bicycle meets standards.

Recently, DAMAXED expanded its factory to 12,000 square meters, added a production line for electric motorcycles, and added automated welding production lines and advanced equipment air compressors.

DAMAXED uses advanced cutting, forming, welding, and polishing equipment, with high production efficiency and the ability to produce 1000 sets of frames per day.

We produce approximately 70,000 e-bikes each year and serve more than 50 countries. The value of our annual output ranges from 60 to 90 million dollars.

DAMAXED HISTORY

QUALITY IS OUR PRIORITY

DAMAXED is part of the DIAMONDBACK (DBR) brand, an international electric bike brand from the United States. It has experienced numerous trials and struggles to gain the support and affirmation of the public. With its expertise and attitude, Damaxed has been able to develop its products and nurture its competitors, winning multiple international awards.

DAMAXED & DIAMONDBACK (DBR)

In 1998, DBR began developing electric bike-related technologies and accumulated a large amount of experience.

In 2003, the group registered its patented technology on the international market and applied it to relevant products developed in collaboration with overseas research institutions.

Due to these circumstances, Damaxed was able to grow.

As a professional manufacturer of high-quality electric bikes we are engaged in research and development, production, sales, and service. We are one of the most reputable e-bike manufacturers in China.

HISTORY

PROMOTION ACTIVITIES

CHINA'S FIRST WORLD FORMULA ONE RACE IN 2004

Since 2004, We have been in close cooperation with Shanghai Circuit. Since the first Formula One World Championship was held in China in 2004, We have provided more than 100 electric vehicles and other transportation tools to the players, including (seven times Formula One champion) Ferrari's Mike Schumacher, teammate Rubens Barrichello and other staff.

BRAND COOPERATION

We have worked with over 50 brands from more than 10 continents across the Americas, Europe, Asia, New Zealand and Africa

CERTIFICATE OF PATENT

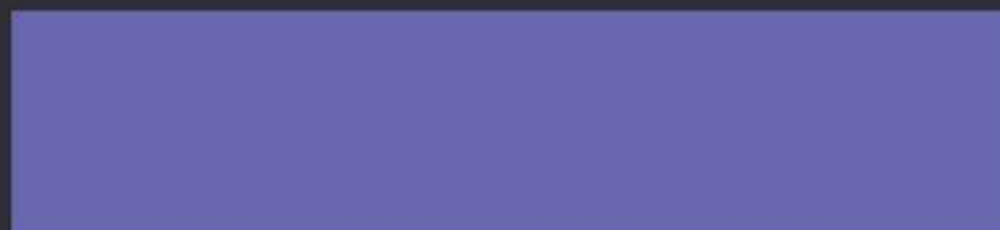

A variety of models designed and developed by our engineers have obtained patent certificates.

THE EXHIBITION

INDUSTRY COMMUNICATION

With our active participation in domestic and foreign industry exhibitions, we have gained a positive reputation in the industry, attracting many visitors and enhancing our value.

OEM & ODM SERVICE

Engineers and tech wizards on our team are innovating cutting-edge technology that will revolutionise the manufacturing of ebikes.

Using our R&D department, we create unique and innovative bike products. Our ebikes are designed to provide power, performance, and style. We can paint any color you want on your bike with our paint line.

Moreover, we have designers based in LA who will incorporate trends and design creative concepts for e-bikes that have been successful in the past.

MAKE YOUR JOURNEY MEMORABLE WITH DAMAXED EBIKES

Using accurate 1:1 torque sensor technology and innovative features, DAMAXED provides high-quality eBikes that are durable, comfortable, and efficient. We design and develop e-bikes that enhance cycling and make it an unforgettable experience.

AFTER-SALES SERVICE

Having global distributors as partners is an integral part of our business.

As a leading provider of after-sales services in Europe and North America, we have a comprehensive service system.

We can provide after-sales support 24 hours a day, 7 days a week.

1

DEALERS TRAINING

Provide dealers with product manuals and train them on our products. They will gain a better understanding of the electric bike industry's development. As a result, DAMAXED and its dealers will continuously increase sales.

3

ASSEMBLY GUIDE

Ebikes ordered from DAMAXED will be mostly assembled when they arrive. We will provide tools and videos, and our bicycles can be completed in 20 minutes.

2

WARRANTY SERVICE

Dealers who order from DAMAXED are automatically covered by the warranty. The quality and low failure rate of our bikes are guaranteed.

4

PRE-ORDER NEW PRODUCTS

When we develop new competitive products, we will notify old clients via email in time so that dealers have time to stock up in advance, we will also provide more favourable wholesale prices to ensure that dealers have sufficient profit margins and gain an advantage in the market competition.
