

CHALK STREET ART

Airbrush Co's Chalk Street Art workshop, where creativity and community come together to create vibrant masterpieces!

Chalk Art Workshop

Our workshop is designed to inspire everyone to come together and create stunning artwork that will light up the community. Whether you're looking to make a bold statement about community values or add an extra splash of color to an event or festival, this workshop is the perfect way to express creativity and leave your mark. This workshop is a fully supervised experience.

What's the Process?

Our skilled artists start by sketching out an outline of the artwork, giving participants the freedom to unleash their creativity by using chalk spray cans to add colour and vibrancy.

What happens after the colour?

Once the colour has been completed, our artist will add the final touches and outlines to create vibrant artwork that leaves lasting impressions and photo opportunities.

The best part?

You get to decide whether to let your artwork fade away over time or use a pressure cleaner to clean it up and start again with a fresh canvas.

Join us for an unforgettable Chalk Street Art workshop and let's create something amazing.
