

office furniture. reimaged.

# Herman Miller Aeron Install Instructions

# Components

The Base, Cylinder, Seat, Lumbar and Arms will all arrive assembled as shown on the first photo below. This is a photo of the back of the chair with the backrest removed.

This next photo is the back and lumbar support.

This next photo is the hardware and tool that comes with the chair.

This next photo is a close up of where the screws will need to be inserted in order to attach the back onto the frame.

This last photo is of the chair completely assembled. No other tools needed other than the Allen Key that is provided as well as the 4 screws.
