GENERAL CONTRACTOR

Ryan Companies

MANUFACTURING PARTNERS

Humanscale, Custom Crafters, Rework,
Compel, Kimball, National, ESI, OFS,
Allermuir, DWR, Grand Rapids Chair Co.

HIGHLIGHTS

- Relocation of existing furniture from Naperville office to new Westmont location
- Decommission team removed and recycled unneeded furniture
- Matched existing workstations using refurbished Regroup stations
- Custom fabric on seating and custom conference room tables

THE SCOPE

Ryan Companies—known for passion and expertise in construction and real estate management—was relocating to a larger office space and sought out Rework for the array of services we provide. We were able to decommission the former Naperville location, move furniture the client wished to keep, refurbish workstations to match Ryan’s existing ones, provide custom fabric for the reception and bar area, and design a light-hearted, relaxed environment that accurately represents Ryan’s brand and commitment to building “places where people thrive.”

THE PROCESS

Utilizing Regroup, our exclusive line of environmentally-responsible and budget-friendly workstations, we accurately matched Ryan’s existing workstations (which we also relocated from the client’s prior office). Built on sustainability and versatility, Regroup stations are crafted from recycled content and designed to reduce waste by maximizing reconfigurability. We replicated Ryan’s existing panels—including the laminate exterior and fabric interior—with acrylic screens for enhanced privacy and functionality in accordance with best workplace practices.

Our in-house design team, working with Ryan’s design team, selected chairs from Grand Rapids Chair Co. and outfitted them with custom fabrics to complement the client’s aesthetic. Our sister company, Custom Crafters, handcrafted the custom conference table and collaborative U-shaped table just outside the conference room. Humanscale Smart Chairs coordinated with workstations, while providing comfortable ergonomics to fuel focused and productive collaboration for our creative client. Allermuir Grainger wingback armchairs added to the luxury of the reception area. The result at Ryan is an atmosphere showcasing Rework at its best: relocation, decommissioning, custom design, and repurposing office furniture—keeping sustainability and client elation front of mind.
