

# STYLE-SSHEP

## ALL STAINLESS STEEL

## HEAT PUMP HOSE ASSEMBLY

Global-Flex Mfg. now provides you with superior, extremely flexible, all stainless steel corrugated hose covered by stainless steel braid. Assembly is engineered to last the life of the mechanical system, handling greater offsets and higher temperatures without compromising hose integrity. Assemblies are available in any length. *Style SSHPEP provides you a hose with a long life of trouble-free service Meets buy America Act.*

### GLOBAL-FLEX MFG. STYLE SSHEP ADVANTAGES:

- Extremely flexible
- Extremely durable
- Last the life of mechanical system
- Handles greater offsets
- Stainless steel ends fittings standard
- Good for cold water, hot water, and steam
- Higher PSI
- Good for temperature up to 1,000 F
- No gaskets
- Vibration isolation

Specifications	.50	.75	1.0	1.25	1.50
Working Pressure	1,225 psi	1,034 psi	796 psi	600 psi	557 psi
Min Burst @ 70 F	4,900 psi	4,136 psi	3,184 psi	2,400 psi	2,228 psi
Min Bend Radius	1.75"	2.65"	3.33"	4.10"	5.08"
Temperature Range	-100/+1,000 F	-100/+1,000 F	-100/+1,000 F	-100/+1,000 F	-100/+1,000 F

### APPLICATIONS

- Fan Coil Hook Up
- Heat Pump
- Isolates Pump Vibration
- Steam
- Steam Condensate
- Seismic
