None

STORAGE, SPILLAGE & LEAKAGE PROCEDURE:

This material is supplied in a dried condition and in sealed bags. No special precautions are required. If spilled or there is a leakage this material can be handled safely although gloves would be advised as well as inhalation protection

TRANSPORT PRECAUTIONS:

Considered non-hazardous for normal purposes. If in bulk bagged form beware of movement within bags if moved by fork lift truck. Check loading hoops and/or tunnels for wear before lifting if purchased in bulk .

HANDLING PRECAUTIONS & FIRST AID:

Eye protection and gloves are recommended. Avoid ingestion. If dry suitable protection of inhalation is recommended. If ingested DO NOT induce vomiting, seek medical advice and attention if you have any discomfort. If the material gets in your eyes rinse with copious quantities of water immediately, seek medical advice and attention if you have any further discomfort.
